"Let Us See To it that A Government of the People, for the People and by the People, Shall Not perish from the Earth."—A. LINCOLN.

Terms: $1.50 per Year

VOL. XXVI BELLEFONTE, PA., THURSDAY MORNING. FEBRUARY 21, 1895. NO 8

FOSTER'S PREDICTION.

He Forecasts That Winter Will Hang on and Some Severe Storms for Next Six Weeks.

My last bulletin gave forecasts of the storm wave to cross the continent from 17th to 21st. A typographical error last week made the storm wave due in the eastern states on the 24th; 21st is the correct date. The next disturbance will reach the Pacific coast about the 22d, cross the western mountains by close of 23d, the great central valleys from 24th to 26th and the eastern states about the 28th.

This will be one of the most noted and severe storms of the year, and deserves special attention. Probably two entirely distinct disturbances will develop within the week of 22d to 28th west of the Mississippi river, one of which I have described above, and which will probably enter the continent between Vancouver island and the mouth of the Columbia river about the 22d or 23rd, move directly toward Kansas City, thence between the upper and lower lakes near or north of Albany, N. Y., and then down the St. Lawrence river.

Causes that lead to destructive storms were similar Feb. 21, to 26, 1887, when tornadoes occurred in California, Georgia, Kentucky, Louisiana and West Virginia, causing great destruction of property.

We have no means of knowing where the tropical storm will be from 21st to 27th, but it will probably be within the Gulf of Mexico, or on some of its northern coasts. Usually the tropical storms of February are mild, carrying heavy and long-continued rains in the gulf states, but this storm, wherever it may be, will come near developing the force of a hurricane.

The average path of these February tropical storms is to strike the continent south of the Gulf of California, then by way of El Paso, Tex., Toledo, O., and the southern part of Newfoundland to the Britis isles, but probabilities are that from the 21st to the 27th this tropical storm will take a more southern route.

Probabilities favor a severe cold wave in the northern part of the great central valleys about the 25th. By watching the national weather bureau reports about that time the location of the tropical storm may be learned in time to be of great value. If that storm is on the gulf coast moving eastward about the 24th to the 26th, the cold wave will do great damage in the southern states about two days after, and be very severe in the northern states. But if the tropical storm is moving westward on the Gulf of Mexico, the cold wave of the 25th to the 28th will not enter the southern states.

An expert can locate the tropical storms by watching the movements of the cold wave on the continent, and along this line is an excellent opportunity for our national weather bureau to improve its work.

The warm wave will cross the western mountain country about the 22d, the great central valleys about the 24th and the eastern states about the 26th. The cold wave will cross the western mountain country about the 25th, the great central valleys the 27th and the eastern states about March 1.

The storm preceding the one described above will be a terror on the north Atlantic, which it will enter off the coast of Maine about the 22d, moving eastward along the usual steamship lines to the British isles. I advise all to not undertake any pleasure trips by ocean steamers from the 22d to the 27th, inclusive.

Among the annual Almanacs which are put into print at this season of the year, The New York Tribune Almanac must be rated as easily the first. The New Yor *Sun* (Dem.) praises it as an exceedingly valuable and accurate book of reference, and, on the other hand calls its principal rival a "book of popular *mis*information." Although emanating from the office of the most aggressive Republican newspaper of the United States, The Tribune Almanac is absolutely devoid of partisanship. The Tribune's "arithmetic man" who figures up majorities the night after election, lays aside his political affiliations when he comes to work upon the Almanac. Accuracy, fairness and completeness are the watchwords then, and the result is see in the wide distribution of the Tribune Almanac all over the United States, and its use by Democrats, Populists and Republicans alike. The number for 1895, which has just come to us, has brought its election returns, statistics and general information up to date, and is the largest and most complele number ever issued. The price is only 25 cents a copy, although now a volume of 380 pages. It was 25 cents a copy, even in the early Forties, when it began its career as a little document of 60 pages.

High Schools Needed.

Secondary schools are the weakest part of the weak system of public education provided in this State and the lack of high schools in many parts of the State is little short of scandalous. Pennsylvania in its high schools is behind every other State north of the Mason and Dixon line, with possibly one exception. No increase of appropriations for primary and grammar schools will improve our public schools unless the higher branches are taught, because in the abscence of high schools—as the desire for improved schools grows— parents will turn to private schools if the public schools stop short with primary studies. The practical result is that although our school appropriation has risen from $400,000 to $5,500,000, in many rural districts the schools have retrograded because the abscence of public high schools weeds out the children of the more intelligent and well-to-do who turn to the other schools giving the higher branches.

The children in the "common branches" will never be properly educated until the "higher branches" are taught as well. Inevitably the work must be begun in a small way. The high school bill introduced by Representative Collins with its provisions for 4, 3 or 2 years study beyond the "common grades" and appropriations of $800 or $600 or $400 for schools in proportion to the length of their course does not accomplish much, but it will be better than nothing. It will at least begin a needed reform, and as the measure has cordial approval of the State Superintendent of Education the Legislature ought to pass it without delay.

The very wording of this reform bill demonstrates the needs of the State. What can be expected when in this measure, which has been favorably reported, it has required by way of maintaining the standard that there shall be "at least one teacher legally certified to teach bookkeeping, civics, general history, algebra, geometry, trigonometry, including plane surveying, rhetoric, English literature, Latin, including Caesar, Virgil and Cicero; the elements of physics, chemistry, including the chemistry of soils, botany, geology, zoology, including ettomology. This educational encyclopedia is to be secured at from $400 to $800 a year, and "at least one teacher" of these varied accomplishments is enough to make a high school. There is no European country, and no New England State in which this sort of education would be proposed.

In this State, however, this bill, imperfect as it is, will mark an advance, and the certificated variety required of one teacher is at least better than no high school, no teacher and licensed ignorance.

Democratic Bankruptcy.

The ignominious failure of the Administration to secure from Congress any legislation whatever on the issue of gold bonds caps the Democratic financial blunders which have ended in the financial bankruptcy of the Federal Government.

First a free trade policy ruined trade, stopped manufactures, paralyzed new enterprises and precipitated panic.

Second, when this policy and the conditions it created discredited the currency, the Administration refused to sell bonds to protect the gold reserve—the only purpose for which they were authorized. This superadded a bank and currency panic to industrial depression.

Third, a revenue act giving a sufficient income for Government needs was repealed and another substituted which in 1894 yielded $60,000,000 less than the needs of the Government.

Fourth, this insufficient revenue has required the use of the gold reserve for ordinary expenditure and discredited the ability of the United States to maintain a gold standard.

Fifth, this has made necessary two bond issues ostensibly to protect the gold reserve, all of whose receipts have been absorbed by ordinary expenditure.

Sixth, these blunders have sunk the credit of the Government so low that it has to stand a 15 per cent. shave, a higher rate of interest than its own cities and mortgage its future issues for six months to foreign bankers.

The Treasury empty, the revenue insufficient, the currency challenged and credit sunk to its lowest point in sixteen years—what more can even a Democratic Administration do?

DuBois Young Man's Luck.

Howard W. Bowman, son of Mrs. E. K. Bowman, of DuBois, seems to have struck it rich. For the last couple of years he has been engaged in various business enterprises in the southwest. Recently, while in New Mexico, Bowman, in company with another young man, secured some property near La Belle, a new mining town. Rich deposits of gold were found on the property, and a company, in which Bowman holds a controlling interest, was formed. An offer of $25,000 for the land was refused, and experts have placed its value at $5,000,000. It will be developed.

Remarkable Mental Development.

Little Harriet Sanderson, aged 4 years, youngest daughter of Mr. and Mrs. Geo. W. Sanderson, of Huntingdon, has shown such an astonishing development of mind for one of her tender years as to border closely on the phenomenal. Of the many persons who have witnessed this little girl's powers of mind and memory, all have expressed genuine astonishment; and it is not believed that a parallel case exists in this country of a child's mental faculties being so prematurely and acutely developed.

It is usual when children first enter school, generally at the age of six years, that they are unable to name the letters of the alphabet, much less to read, write or work out arithmetical problems, yet young Miss Harriett does all these and more. She finds no difficulty whatever in reading entertainingly in the third reader, adopted in the public schools and which is principally assigned to the use of children of ten and twelve years. Miss Sanderson also reads very smoothly from more advanced literary works, and those selections which strike her fancy she memorizes and then recites with the grace and charm of an elocutionist. She finds no difficulty in writing an even legible hand, and she reads script almost as readily as printed matter. In reading and reciting little Miss Sanderson shows a remarkable comprehension and familiarity with the proper and precise inflection of voice when required.

Figures also present no terrors for this adept young scholar. Miss Sanderson is thoroughly familiar with the multiplication table, and juggles with problems in addition, subtraction, multiplication and division. At four years of age this young lady has reached just such a development of mind as is described above, and remarkable as it all may seem, she has acquired this early proficiency largely through her individual efforts.

The Revenue Bill.

Should any citizens in Centre county desire to be heard upon any of the provisions of the revenue bill now before the committee on ways and means, the chairman of the said committee, Frank M. Riter, informs Hon. P. E. Womelsdorff that he would be obliged to him if he would forward him the names and addresses of such persons. The committee will endeavor to make such arrangements as will secure to every one a full hearing, and, as far as possible, will arrange to have kindred interests appear at the same time.

Just a Change of Editors.

S. E. Fleming, editor of the Monitor, has been appointed postmaster at this place by President Cleveland to succeed John A. Nash, editor of the Journal, whose term expires March 3d next. Mr. Fleming was postmaster four years ago, and discharged his duties faithfully and satisfactorily. We congratulate him upon his appointment.—Huntingdon *News*.

Change of Schedule.

We call the attention of our readers to the fact that on next Monday, February 25th, a change of schedule will take place on the Bellefonte Central railroad. The train leaving here now at 7 o'clock in the morning will leave then at 6.30 and arrive at the College at 7.30. In the afternoon the train which now leaves the College at 1.50 will leave at 2.30, arriving here at 3.25 instead of 2.45 as at present.

Struck by an Engine.

Jacob Smith, the well-known tailor, of Lock Haven, while walking on the Bald Eagle valley railroad from Mill Hall to that city, was struck by a freight engine near Flemington. Several severe bruises on the back and side and a cut on the face were inflicted. The family was notified and one of his sons took him home in a sleigh. The accident occurred Monday night.

The "Brownies" are Coming.

The "Brownies" were delayed a few days on account of the recent big blizzard, but they are now on the road again all right and headed this way. They will reach Bellefonte in the near future and will give an entertainment under the auspices of and for the benefit of the M. E. church. The place of entertainment will likely be the new armory. Everybody is urged to wait for the "Brownies" if they want to see something real good.

Village Improvement Committee.

At a public meeting held nearly a year ago, I was authorized to appoint a Committee of ladies in each Ward to promote, if possible, the organization of a Village Improvement Society and to take measures for improving and beautifying the town.

In view of the approach of spring, when town cleaning and tree planting should be considered, and in view also of our approaching Centennial, which will be celebrated on the 5th, 6th and 7th days of June next, it seems to be an auspicious time for an attempt to organize a Village Improvement Society and to take into consideration the above mentioned and kindred subjects.

The following have been appointed, in accordance with the authority given to me on the Committee for the Ward. I suggest that you notify others of your vicinity who are likely to be interested in the matter.

Very respectfully yours, etc.,
James A. Beaver.

Committee for North Ward.

Mrs. A. O. Furst, Mrs. John P. Harris, Mrs. J. W. Gephart, Miss Clara Valentine Miss Leona Maitland, Mrs. J. A Woodcock, Mrs. A. E. Kitson, Mrs. John Ardeil, Miss Mary Blanchard, Mrs. C. M. Bower, Mrs. L. A. Schaeffer, Miss Eliza Thomas, Miss. Myra Holiday.

Committe for South Ward.

Mrs. Margaret H. Wilson, Mrs. J. L. Kurtz, Miss Mary Brockerhoff, Mrs. Amos Mullen Miss Marion Petrikin, Miss Kate Harris, Mrs. J. A. Aikens.

Committee for West Ward.

Mrs. Sarah Satterfield, Mrs. Frank P. Blair, Miss Lula Meek, Miss Ida Gerberich.

High School Rhetoricals.

Song by the school, "Catch the Sunshine."

Essay, Kittie Heylmun.

A Congress of Women.

The Congress of Women which assembled in Washington yesterday promises to be a notable gathering of thinkers and reformers. It is the second Triennial Congress of the National Council of Women of the United States. All sorts and conditions of women are represented in the Council, missionary societies, health associations, trade and professional organizations, relief societies, patriotic orders and political leagues sending delegates. The motto of the Council is "Lead, Kindly Light," and all the federated societies which form it are, under the terms of the constitution, entirely independent, but assembled together in a great National Council they discuss freely questions of importance to women as women, and thus promote the special interests each may have at heart. Seventeen national organizations of women form the Council whose work is carried on through standing committees. Three of these were organized in 1891, and the fourth last year. Their titles indicate the subjects committed to their consideration. There is a Committee on Dress, a Committee on Divorce Reform, a Committee on Equal Pay for Equal Work, and a Committee on Patriotism.

Talmage on Journalism.

DeWitt Talmage says: "One of the great trials of the newspaper profession is that its members are compelled to see more of the shame of life than any other profession. Through every newspaper office, day after day, go all the weaknesses of the world; all the vanities that want to be puffed; all the revenges that want to be helped; all the mistakes that want to be corrected; all the dull speakers that want to be eloquent; all the meanness that wants to get its wants noticed gratis in the editorial columns; all the men who want to be set right who were never right; all the cracked brain philosophers with stories as long as their hall and as gloomy as their finger nails in mourning because bereft of soap—all the bores who come in to stay five minutes, but who stay five hours. Through the editorial and reportorial rooms all the follies and shame of the world are seen day after day, and the temptation is to believe in neither God, man or woman. It is no surprise that in the profession there are some skeptical men; I only wonder that journalists believe anything."

—Charles H. Diem, of Philipsburg is taking Harry Hutchinson's place as ticket agent at the P. R. R. depot, the latter being confined to his home with sickness.

NEW YORK FASHIONS.

Spring Crepons: Waists and Skirts: Millinery Colors.

A crinkled surface is the prominent feature in handsome Spring materials, and furrows, indentations, puckered stripes or wavy irregularties of every description, give the stamp of Fashion to almost all new wool fabrics. The most varied illustrations are in crepons, which certainly over shadow other dress goods for the time being, and price is graded according to fluffiness or indentations; some varieties having a waving Bayadere or lengthwise stripe; but for convenience, the term "Alligator crepon" is generally applied where no distinct design is apparent. A coarse thread network on the wrong side, prevents these various corrugations from pulling out of shape, and in high-class crepons, colored linings woven at the back, reflect very prettily through the black or colored exterior.

A GRANULATED SURFACE

belongs to less expensive crepons, which are usually in black or one color; but two or three hues are interwoven with beautiful effect, in very expensive styles. Shepherd checks and Oxford suitings in blue, brown or gray will rival rough Cheviots for early Spring, as the tailor-made gown is too convenient and trim to pass out of style, but besides these various fabrics, Lord & Taylor are showing black or colored crepons, forty-two inches wide at $1.00 per yard. "Granite mixtures" prove the still strong demand for "two tone" fabrics and although plain cloths exist, they were never before in so small a minority.

NEW SKIRTS

are being made from four and a half to seven yards wide; but no absolute certainty exists as yet, the latter width however shows off the ripples and curves of new crepons to great advantage. From the extreme popularity of crepons, it may be anticipated that black skirts with independent waists will be more worn than ever, and a great partiality for the blouse front with closely fitting sides is noticeable in new waists, which are not exactly round but just long enough to cover the skirt band. The rosette has had its day and made its exit, supplanted by satin ribbon bows at the shoulders and a very large one at the waist on the left side. Plain satin or Dresden ribbon will be prominent trimmings, but black or colored spangles occupy the foremost position, particularly for velvet or rich silk, and are also sewed on black satin ribbon in diamonds, round or oval shapes, and sold by the yard. Incredible as it may seem, sleeves will probably be larger, and as a natural consequence short capes will be the most popular Spring wrap.

STRAW HATS

are sufficiently varied in shape, texture or color to suit all tastes; Milan, Leghorn, chip, rough and lace straws usually combined with a second braid of opposite weave, and crinkled or plaited edges are shown in large numbers. Large round hats with high crowns on the Gains borough order, five or six fancy toque shapes a great variety of capotes, sugar loaf crown walking hats, and a legion of medium-sized shapes edged by a rough straw box plaiting are at present leading styles. "Patent leather" straw is entirely new, glistening like jet and in small cords on a colored chip, or as an edging or entire brim with contrasting crown, the effort is handsome and peculiar. Broad trimmings will be almost universal, and flowers more in favor than anything else; Dresden ribbon however are beautiful enough to prove a powerful rival. Ostrich feathers, Rhine stone buckles, pins or circlets, gilt hats, crowns, steel ornaments of all descriptions, jet hats, buckles, fancy spangled crowns, and mirror velvets, constitute a varied outlook for Spring millinery.

COLORS ARE BRIGHT

in both hats and ribbon, all the *cerise* shades meeting with renewed favor, and crimson, blue, green, golden brown, and purple, particularly the violet tints, seem popular favorites.

Verona Clarke.

Move Faster.

"Why don't you do this," "why don't you do that," and scores of similar questions are fired at the newspaper man every day almost, and he is asked and urged to advocate this improvement and that enterprise, but the same people who do this urging are derelict themselves when there is anything to be done for the good of the town. In this connection we might refer to the Shirt factory. For over a month now the scheme has just been "hanging on" with no surer signs now than when first spoken of. Why don't the men who have the affair in charge get down to business and do something definite; do something that will count. Let the necessary men be appointed as a committee to solicit subscriptions to stock for the concern, and then let them get down to work in earnest and see if the necessary amount of money can be raised. If it can be, let it be done at once, and get the factory here soon as possible.

Then there is the Centre County Fair movement; the Curtin monument movement, the Bellefonte centennial movement, all these are simply living and no more. Wake up, citizens; and put some life in every undertaking. It will take money, it will take work and lots of enterprise to push all these things to a successful termination. You all want to see this done, so why not get down to work and do it. Begin in time, and end in glory.

Foundations of Friendship.

In aristocratic countries, where class feeling is strong, and class distinctions are rigidly preserved, and treated as a matter of course, persons in one sphere neither claim nor expect any intimate acquaintance, much less friendship, from those in another; nor do they experience any disappointment at not receiving it. In our own land, however, which has happily abolished all such artificial and conventional lines of separation, there are certain expectations in this direction, which are quite unfounded, and frequently induce a discontent and bitterance of feeling which are entirely unreasonable.

It is sometimes, for example, affirmed by certain persons that others who live in a more expensive style than themselves are "too proud" to associate with them on terms of familiarity. Now, perhaps, there are instances where this is true. Human nature is not wholly purged of superciliousness and arrogance, even where true democracy prevails; and the mere possession by one man of more money than another is undoubtedly sometimes seized upon as an excuse for a false pride, and a disdain which is utterly contemptible, and quite beneath the notice of any independent person, however limited may be his means.

Much oftener, however, this charge, made at random and without proof, has no real foundation whatever. Many reasons operate to prevent intimate association, some of which are obvious enough to every intelligent person, and others may be hidden from sight in the intricacies and complexities of human character. There are differences of habit, opinion, interests, education, refinement, tastes, standards of action and of life, any of which may be sufficient to prevent that congeniality which is the life essence of pleasurable companionship. All these, and many others, have nothing whatever to do with wealth or station. Take a hundred people at random, moving in the same circles and receiving the same income, and how many of them will be likely to form intimacies? Certainly very few, possibly none nor would there be any reasonable ground for complaint because of it. How, then, should those of unequal means be expected to evolve any greater degree of friendship? It is not difference in rank or fortune that keeps intelligent people in America aloof from each other, but a want of congeniality, which must and ought to be accepted as an amply sufficient reason.

Lincoln and Curtin.

"The war Governor was an honest patriot and a brave man," says Kate Field's Washington, but he was of a highly nervous temperament in his younger days, and this caused him to say and do a good many things which he would have left unsaid and undone if he had himself a little better in hand. Lincoln, with his quaint way of seeing through his human nature, read Curtin like a book. With all the repect which he felt for the Governor's strong points was mingled a little irritation at a side of his nature which the latter would show now and then.

"The two men got along very well till the war was half through, and a Confederate army made a attempt to cut through Pennsylvania to the North. Then Curtin was seized with a momentary panic, and telegraphed to the president:

"The rebels are within four miles of Harrisburg and have begun firing."

"The answer which came back was:

"What are they firing at?"

"This ended the correspondence. In after days Lincoln used to say, alluding to the episode: 'Curtin would be a better man if he didn't lose his head in emergencies.' And Curtin used to say of the war President: Lincoln was a great man—a very great man—but it was hard sometimes to know how to take him.

"Charley's Aunt."

"Charley's Aunt" gets receptions that any woman might be proud of. The piece is uproariously funny and withal is absolutely free from horse-play or anything offensive.

Married.

Harrison—Ross.—At the United Evangelical parsonage, February 14, 1895, by Rev. G. E. Zehner, Wm. T. Harrison and Miss Catherine Ross, both of Pleasant Gap.

TROUBLOUS TIMES AT PANAMA.

The Revolution More Serious Than Government Reports Admit.

NEW YORK, Feb. 13.—A late arrival from the Isthmus of Panama brings information of the seriousness of the revolution now in progress in the republic of Colombia. Battles have been fought at several places in the interior, which the government reports as disastrous to the revolutionists, but the agents of the rebels assert that this is untrue. The activity of the government in chartering the coastwise steamer Premier and forwarding arms and ammunition to the southern departments shows the anxiety felt.

No reports unfavorable to the government are allowed to be printed. Local mails and personal letters are subject to inspection, and letters of political significance antagonistic to the government would result in the immediate arrest of the sender. No one is allowed on the streets of Panama or of Colon without a pass after 10 p. m., and the police are ready to disperse any crowd in the daytime.

All passenger ships arriving at Colon are closely examined for suspected sympathizers and munitions of war, and the cable lines are under government surveillance, so that all information received outside of the republic is wholly in favor of the government and extremely unreliable.

Affairs on the isthmus are very dull and seemingly quiet, but an outbreak is imminent at any time, as the laborers employed by the Panama Railroad and Canal companies are on the verge of a strike, owing to low wages and increased cost of living since Jan. 1. The presence of the Atlanta at Colon and the Nymph and Satellite, two English men-of-war, at Panama, has a salutary effect on the dissatisfied employes. Heretofore all strikes have resulted in burning and pillage.

Murdered by Mexican Bandits.

CITY OF MEXICO, Feb. 13.—There are no developments of importance in connection with the Guatemalan situation. Word has been received from Puebla of an outrage upon a party of Americans by Mexican bandits. At a tie camp on the Inter-Oceanic railroad Captain William Scott, an ex-captain of the Texas Rangers, his brother John, another American named Franklin, and a woman were surrounded by sixty Mexican bandits, who shot the men down, robbed them of everything of value and abused the woman shamefully. The men will hardly recover. Americans and English started in pursuit of the bandits, and it is reported that a number of them have been captured or killed.

To End Brooklyn's Trolley Strike.

BROOKLYN, Feb. 13.—As a result of a conference held yesterday afternoon between President Lewis and the board of directors of the Brooklyn City railroad and ex-Assemblyman John Graham and Police Justice Tighe, the trolley strike in Brooklyn, which was begun on Jan. 14 last, will probably be called off today. It is learned that President Lewis promised to take the strikers back, one by one, as they reported for work at the car stables. When vacancies occur by the dismissal of non-union men or on account of their leaving the old men will be put in their places, but it is understood that no new men will be discharged to make room for the old.

A Dead State Treasurer's Big Shortage.

CARLYLE, Ills., Feb. 3.—When Rufus Ramsay, who died suddenly three months ago supposedly of heart disease, went into the state treasury two years ago he was thought to be the richest man in southern Illinois. Within a week over $500,000 in claims against the estate has been filed, but the most startling is that of the five Chicago bankers who were his surety as state treasurer. When Henry Wolf succeeded the dead man he found a shortage of $363,259.90. The bondsmen made the shortage good, and the claims are filed for their reimbursement.

Snow Shovelers Killed by a Train.

HARRISBURG, Feb. 9.—While digging out a snowbound train on the Pennsylvania railroad near Lucknow yesterday afternoon ten men were run down by a section of the Pacific express. Two were killed instantly, two injured so badly that they lived but a short time, and a fifth is at the hospital with a fractured skull, his arm broken in three places and severe contusions of the face. The dead are: John K. Darr, Noah Nye, George W. Stroup and John Crossley. Injured: Benjamin Otstot. All the dead leave families.

Collided with a Trolley Car.

LOUISVILLE, Feb. 13.—By a collision between an electric car and a wagon at Brook and Main streets Frank Story and wife received injuries which will probably result fatally. The motorman saw that a collision was inevitable and sprang from his car, leaving it running wild. The car struck the wagon and smashed the rear end to splinters, throwing the occupants out and injuring them internally. Ed Clark, another occupant of the wagon, escaped injury by jumping.

Brooklyn Strikers Still Riotous.

BROOKLYN, Feb. 13.—Between midnight and daylight union men and their friends made an attack on three trolley cars on different lines. A brick was thrown through a window at a car on the Tompkins avenue line; a non-union conductor on the Bushwick avenue line was assaulted and badly beaten by five men; a mob attacked a car on the Flushing avenue line with bricks and stones, breaking nearly every window in the car. No arrests were made.

Nearly Cut to Pieces.

CHAMBERSBURG, Pa., Feb. 13.—A tramp supposed to be Thomas Maloney, 60 years old, was killed by a Cumberland Valley railroad train near Marion. Maloney was in a cut between snow drifts, and tried to escape the train by pushing into the snow, but he was caught by the car, thrown under the wheels and nearly cut to pieces.

Victories for Woman Suffrage.

SACRAMENTO, Cal., Feb. 13.—Woman suffragists have won a victory in the assembly. An amendment to kill the Spencer bill, providing for woman suffrage, was defeated by a vote of 48 to 23.

PHŒNIX, Ariz., Feb. 13.—The house has passed, by a two-thirds vote, the right of woman suffrage in Arizona.

Peace Ambassadors Given Full Powers.

LONDON, Feb. 11.—A dispatch to The Times from Pekin says that full powers have been telegraphed to the Chinese peace envoys, with a view to the renewal of the negotiations with Japan. The envoys are now at Nagasaki, Japan.

Bill Cook Gets Forty-five Years.

FORT SMITH, Ark. Feb. 13.—Bill Cook, the outlaw, was sentenced yesterday in the United States court to forty-five years in the penitentiary at Albany, N. Y.

THE HAWAIIAN REBELS.

Six Leaders of the Late Revolt Sentenced to Death.

ONLY ONE AMERICAN AMONG THEM.

The Sentences of Two of the Condemned Will Probably be Commuted, but There Is No Hope for Robert L. Wilcox, the Leader of Many Revolts.

VICTORIA, B. C., Feb. 11.—Hawaiian advices by steamer Warrimo to Feb. 2 says: There are a large number of conspiracy citizens yet to be tried, and the probabilities are that the court will sit for two or three weeks at least. Great interest is attached to the forthcoming trial of the ex-queen. The government claims to have more than sufficient evidence to convict her of treason. What her punishment will be in case of conviction is hard to conjecture. There are six specifications in the charge.

The military commission has brought in findings in twenty-four cases. Their names are: Robert L. Wilcox, Charles T. Gulick, William H. Rickard, William T. Steward, Sam Nowlein, Henry Bertelmann, Carl Widemann, W. H. C. Greig, Louis Marshall, W. C. Lane, J. C. June, T. B. Walker, Solomon Kaulan, Lot Lane, Thomys Poole, J. Kalaukoa, Robert Palu,

ROBERT L. WILCOX.

J. W. Kipikane, Joseph Clark, D. Januaha, W. W. Iddifield and Joea Kiakahi. Of the foregoing D. Januaha and J. Kalaukoa, were acquitted. The others were all found guilty, and sentences were fixed by the commission subject to review by President Dole. The sentences vary much, all the way from sentence of death to imprisonment for five years with fines.

The six leaders—Wilcox, Gulick, Rickard, Steward, Nowlein and Bertelmann—have been sentenced to be hanged. Sentence in the last two cases will be commuted, as both men have furnished valuable evidence for the government. Gulick was born in this country. Rickard is an Englishman. Wilcox is a Hawaiian. The only one of the six due to the protection of the United States is William Steward. As yet no date has been set for the execution.

The only important case tried before the military court since the departure of the Australia was that of V. V. Ashford. He is charged with treason. A batch of twenty native rebels, charged with rebellion, is now attracting the attention of the court.

United States Minister Willis has changed his attitude since the latest advices. His latest communication to the government is a request that if the death penalty is imposed in cases of any Americans that the executions be postponed until he can communicate with his government. The British commissioner has made a similar request. Thus far two men who will claim American protection have been tried. They are Louis Marshall, charged with open rebellion, and Thomas Walker, who pleaded guilty to the charge of treason.

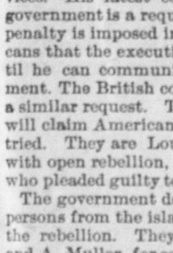
The government decided to banish three persons from the islands for complicity in the rebellion. They are J. E. Cranston and A. Muller, for conspiracy to use dynamite, and J. B. Johnstone, special police officer, who turned traitor. The men were sent on the Warrimo. Cranston and Muller were to blow up the Central Union church on the night when the rebellion broke out. Of the three exiles Johnstone is a British subject, Cranston an American and Muller a German. They say they do not know what they were arrested for; were given no trial; were kept confined without any chance of communication, and did not know they were to leave until the Warrimo whistled to leave. Johnstone will remain at Vancouver, but the others say they will not leave the steamship, but will return on her to Hololulu when she goes back. They claim that they have been victims of gross outrages.

The Snow Covered Area.

WASHINGTON, Feb. 13.—A chart issued by the weather bureau shows that east of the Mississippi river the snow covered area has reached unusually low latitudes, and that from northern Georgia, eastern Tennessee and the western part of the Carolinas northeastward to New England the ground is snow covered with greater depths than at any previous time during the winter. In the Mississippi valley as far north as St. Louis and over the southern part of Illinois, Indiana and Ohio there is little snow, generally less than three inches, but to the northward the snow is very deep, ranging from ten to eighteen inches. Snow is heavy over North Dakota, eastern Montana and Colorado, but has diminished during the week over Nebraska, Kansas, Missouri, Arkansas and northern Texas.

Senator Higgins May Withdraw.

DOVER, Del., Feb. 13.—It is said that there is a possibility of Senator Higgins withdrawing from the Senatorial contest on March 1, and turning his votes over to Edward G. Bradford. The story was mentioned to a Higgins man, and he replied: "Senator Higgins can't control a single vote which is being cast for him. We are voting for him voluntarily. If he should ask me to vote for Mr. Bradford I would refuse to do so." It is said that Ambassador Bayard will secure five votes before the week closes.



Mrs. Mary A. Tupper has been released, at Wilton, Me., from the custody of extreme *Female Weakness*, which kept her a prisoner in bed unable to walk. *Lydia E. Pinkham's* Vegetable Compound made the change. She advises all sick women to take this valuable medicine, and be thankful for their lives, as she is for hers. It costs only a dollar at any druggists, and the result is worth millions.

Chief of the Income Tax Division.

WASHINGTON, Feb. 12.—Secretary Carlisle has appointed and commissioned Mr. E. C. Johnson, of Port Townsend, Wash., formerly chief of the sugar bounty division, as chief of the income tax division, treasury department.

To Sail the Cup Defender.

NEW YORK, Feb. 12.—The old sea sharp, Captain Terry, has been engaged to sail the cup defender. It is said that in many respects he is the superior of Captain Hanson, who sailed the Vigilant.

A WEEK'S NEWS CONDENSED

Thursday, Feb. 7.

Burglars entered the county clerk's office in Chicago and got away with $100 in cash and $3,000 in checks.

Ex Queen Liliuokalani, of Hawaii, has written a letter to President Dole renouncing all claim to the rulership.

The betrothal is announced of the crown prince of Italy and Princess Maud, eldest daughter of the Prince of Wales.

John Bock, his wife and four children were burned to death in a fire which destroyed their home near Omer, Mich.

Dr. J. E. Raeder, the notorious Kentucky mountain desperado, recently pardoned from prison, was killed in the home of Widow Catherine McQuinn, near Jackson, Ky. The woman admits the shooting.

"Slaughter Kid" and Jim French, the last two members of the Cook gang, were killed while trying to rob a store at Catoosa, I. T.

Three men who went in an open boat to carry provisions to the Milwaukee pumping station in Lake Michigan were drowned last night.

While Rev. G. S. Gresham and family were crossing a river at Fish Ferry, S. C., the boat sunk. Mrs. Gresham and 13-year-old son were drowned.

Schooner T. B. Dickson went ashore at Martha's Vineyard, Mass. Captain Joseph Boswick, Mate Martin Lee and an unknown sailor were dead on the cabin, frozen stiff.

The national house yesterday, by a vote of 134 to 161, rejected the administration bill to authorize an issue of $500,000,000 gold bonds. This probably kills financial legislation this session.

John L. Stevens, ex-minister to Hawaii, died at Augusta, Me., aged 74.

Twelve indictments were returned in Brooklyn against the strikers and others who participated in the recent riots.

A dispatch from Forest City, Ark., says the steamer Cyclone blew up in the St. Francis river. Eight persons were killed and one injured.

W. T. Andrews, who charged corrupt practices against the firm of Filbert, Porter & Co., of Philadelphia, pleaded guilty of perjury and was fined $1,000.

Engineer Patrick Mahoney and Fireman Daniel Lavalle were buried beneath the ruins of their locomotive, near Far Rockaway, L. I., and killed. The engine was overturned by a snowdrift.

The Mexican newspapers are strongly urging the re-election of President Diaz.

Twenty-one of the twenty-three Armenians recently tried at Erzinghiam have been condemned to death.

M. H. Spaulding, paymaster of a Derby (Conn.) cotton mill, was waylaid by highwaymen and robbed of $2,067 in broad daylight.

Schooner Louis V. Place run aground off Fire Island, N. Y. Seven of the crew were lost. Two were rescued by life savers, terribly frozen.

The steamer Umbria arrived at New York yesterday, bringing the crew of the French bark Jean Baptiste, which sunk in midocean shortly after the rescue.

Because she refused to marry him, Albert Kotusek attempted to cut Mary Zelusik's throat in Chicago, and then gashed his own throat. Both are in a critical condition.

During a fire at Kansas City five firemen were injured so seriously that three may die.

Mary Cuff, colored, froze to death while cutting wood near her cabin at Hollins, Va.

Mexico is willing to submit the question of indemnity from Guatemala to arbitration.

Mrs. Davis, teacher of a district school near Lyons, N. Y., was found frozen to death in a snow drift.

By a powder explosion on the drainage canal at Joliet, Ills., three men were blown to pieces and two others fatally injured.

Mississippi's gubernatorial contest is now in the hands of a legislative committee. Meantime Governor Turney retains the office.

Mgr. and Vicar General May died in Brooklyn last night, aged 68. He had been pastor of Holy Trinity church for over thirty years.

Imitative Forms In Flowers.

Those who have given any particular attention to the study of botanical oddities know that the Brazilian flower known as the "running antelope" is so called because its white petals have a series of well defined dark colored lines and dots, in which the imagination can readily trace the form of an antelope, with its limbs outstretched and head thrown back, seemingly fleeing for its life. In the "caricature plant" one species has the imitative form on the petals, and another has it outlined in the ribs and shading of the leaves. This last mentioned curiosity bears a remarkably well executed likeness of the Duke of Wellington and has on that account been named "Arthur and His Nose."

Among the orchids the imitative form is entirely different in character, being exhibited in the shape of the flower itself. Some are exact counterfeits of bees, butterflies, moths, etc., while others take upon themselves the form of worms and beetles. Naturalists believe that in the first instance it is nature's trap to lure other bees, moths and butterflies, but the case of the worm and beetle orchids, or those that are exact counterparts of toads, lizards and huge spiders, they do not attempt to explain.—St. Louis Republic.

Killed by Masked Men.

Kingston, Mo., Feb. 17.—At 2 o'clock this morning a mob of masked men, supposed to be negroes from Hamilton, surrounded Sheriff Goldworth's house, took the keys from him and gained entrance to the jail corridor, with the avowed purpose of taking out and hanging George Tracy a negro, who shot and killed his wife at Hamilton, in this county, in January. The mob was unable to get into the steel cell in which Tracy was confined with two negroes. Tracy crawled under the bed and the mob began shooting through the bars of the cell door and succeeded in putting six bullets into his body, killing him instantly. The two prisoners confined in the cell with Tracy escaped unhurt. Tracy was a bad character and had lately served a jail sentence here for shooting a negro.

Juniata Valley Campmeeting.

There was a meeting of the stockholders of the Juniata Valley Campmeeting association in Huntingdon recently. They have arranged to open the hotel in the camp ground August 2 next. There will be a number of special days during camp, among which will be a Grand Army day, Epworth League day, missionary day Woman's Christian Temperance Union day, and others. Chaplain C. C. McCabe is expected to be present on Saturday and Sunday. Every effort will be put forth to make it the greatest meeting in the history of the camp.

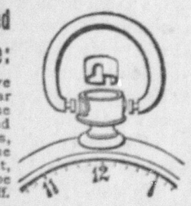
WITHOUT THE

Non-pull-out

BOW (RING)

it is easy to steal or ring watches from the pocket. The thief gets the watch in one hand, the chain in the other and gives a short, quick jerk—the ring slips off the watch stem, and away goes the watch, leaving the victim only the chain.

This idea stopped that little game:



The bow has a groove on each end. A collar runs down inside the pendant (stem) and fits into the grooves, firmly locking the bow to the pendant, so that it cannot be pulled or twisted off.

Sold by all watch dealers, without cost, on Jas. Boss Filled and other cases containing this trade mark—

A watch case opener sent free on request.

Keystone Watch Case Co.,
PHILADELPHIA.

Pitcher's Castoria.

—A high grade coffee at a low grade price. Mocha and Java screenings at 22c per pound at the Eureka Grocery. tf

—"The Brownies" will be in Pittsburg this week and it won't be long until they will come to Bellefonte, They are curious creatures—watch for them.

—The mayorality fight between Warwick and Pattison in Philadelphia is a hot one with the chances in favor of Warwick. Pattisons star may become a loadstone before he is through with the mayorality business.

—It is currently reported that Mr. E. B. Rankin, the efficient manager of the Western Union Telegraph office in this place, will soon be given a better position in Harrisburg. Ed. is a first-rate fellow and deserving of the best to be had.

—The *Watchman* pokes fun at the Board of Health for mistaking a case of "worms" for "scarlet fever," and the Board of Health seems to be in humor to accept the joke which they maintain was a stern reality. One thing is certain, however, and that is, the authorities cannot be too careful with anything resembling a contagious disease. Better be on the safe side of everything, even worms.

—The staid conservative, veracious Philadelphia Ledger tells the story of a bachelor and a spinster of Cape Cod who were engaged to be married for forty three years. At the end of that time the engagement was broken off because the man pulled a corkscrew out of his pocket with his handkerchief, a mishap which drew from the adored one the remark that she was glad the discovery was made as she had her suspicions for thirty years. And yet the men will call women creatures of impulse.

Mr. C. C. Buel contributes a paper to the March Century on "Blackmail as a Heritage; or New York's Legacy from Colonial Days," in which he shows that the modern customs of levying blackmail, as revealed by the Lexow investigation, and of exacting political contributions from merchants, may be regarded as out growths of practices which have prevailed in New York since the time of the early Dutch governors. The first "boss" of Manhattan Island was Cornelis Van Tienhoven, who was of the true Tammany stripe.

Some Costly Things.

The most costly pipe in the world is that used by the Shah of Persia when he smokes upon certain state occasions. It is incrusted from the top of the bowl to the amber mouth piece with diamonds, rubies and pearls, and is valued at $320,000.

The most valuable bound book in the world is the Hebrew bible now kept in the library of the Vatican at Rome. Within the last half dozen years a syndicate of rich Jews have offered $103,000 for it.

The most valuable manuscript in the United States is that of the original book of Mormon, which is now kept in the vault of one of the Richmond (Mo.) banks. It is in the possession of a family by the name of Whitmer. They have been offered $100,000 in gold for it by the Salt Lake faction of the Mormon Church.

The largest sum ever asked or offered for a single diamond was $2,450,000, which the Prince of Hyderabad, India, paid for the "Imperial."

The two most costly prayer rugs in the Orient are those made specially for the Shah of Persia and the Sultan of Turkey. Each is bordered with diamonds and pearls and valued at $2,500,000.

The most valuable modern painting is Messionier's "1814," which was sold to a Frenchman a few years ago for a sum equal to $170,000.

In the Dr. Abbott case of Egyptian antiquities, in the Museum of New York Historical society, is preserved the iron helmet of Shishak, who took Jerusalem from Rehoboam 900 years B. C.

A Lancaster Lady Robbed.

Lancaster, Pa., February 17.—Ten days ago Mrs. Ableman, who lives at the Aurora house, was robbed of $4,500 incash and securities, and this morning the securities and $200 in money were returned. It was Mrs. Ableman's custom to keep her property under her pillow at night. One morning she forgot them and went to the dining room to breakfast, locking the door. When she returned to her room after breakfast the door was open and her treasure was gone. The matter was placed in the hands of detectives and an arrest was to have been made to-morrow of a suspected person. This morning when Mrs. Ableman had finished her breakfast she went to her room and there beneath a pillow on the floor were the securities and $200 in cash. She was not absent from her room more than twenty minutes and her going and coming must have been watched by the conscious thief.

Gas and Oil Directors.

Another meeting of the directors of the Salt Lick gas and oil company was held at the Fallon house, Lock Haven, on Friday. Further arrangements were made for the drilling of the second well, which was decided upon at the former meeting and which will be begun as soon as the weather will permit. Additional tracts of land adjacent to that already secured by the company have been leased from time to time until now there are about twenty tracts more upon which the company can operate. The directors are very sanguine that they will meet with success, notwithstanding that the well already put down was a failure. Another meeting will be held in that city on March 18.

House Burned.

On Tuesday evening about 5 o'clock the two story dwelling occupied by Harvy Rossman, near Brush mountain, about 4 miles east of Centre Hall, was burned; the fire originated on the 2nd floor from a defective flue.

Everything on the 2nd story was burned; on the first floor all was gotten out except a cupboard. The house was on the farm belonging to Mrs. Neidigh of Haines township, and Mr. Rossman was the tenant. There was no insurance so far as we can learn.

This will be a severe loss for Mr. Rossman, as he has suffered much in pain and expense for many months from an injured arm.

School Report.

The following is a report of Unionville Grammer school for the fifth month, ending Feb. 14, '95.

Number of pupils enrolled, males 9, females 22; total 31. The following were present every day: Alice and Mary Buck, Mary R. Griest, Edith Geary, Mary Morrison, Minerva Woleslagle, Maud Frink. William and Forrest Van Valin, Philip Lloyd, Penn Griest, and John Cadwallader.

It would take too much space to write the names of those who did not miss any words, but next month I'll give you a full report.

W. Emerson Karns.

A Railroad Contractor Dead.

Councilman Henry H. VanDyke, of Lock Haven, died suddenly Thursday morning. He was a railroad contractor in days gone by and assisted in the construction of railroads as follows: From Youngstown to Niagara Falls, N. Y.; Lewiston to Niagara Falls, N. Y.; a portion of the P. and E. railroad, a section of the Bald Eagle valley railroad, a section of the Snow Shoe railroad, and the Lewisburg and Spruce Creek road. He at one time was also engaged in lumbering.

David Kochler all Right.

It was reported in Bellefonte this week that David Kochler, the peddler, had been frozen to death near State College on last Friday. This rumor could not be confirmed and yet nobody seemed to know anything to the contrary. Wednesday a gentleman was in this office and stated that Davy was seen in Philipsburg this week. This, of course settles the fact that he is still in the land of the living and the man who started such a report should be ashamed of himself and repent in sack cloth and coal ashes.

A Military Ball.

Thursday night, February 21st, Co. B. 5th Reg. N. G. P., the crack soldier boys of this place, will entertain the public with a ball in their Armory. The Regimental drum corps and orchestra will come down from Altoona to furnish the music and what, with such music, the grand dance hall, and a supper that will be served, more could one want for a delightful night. Tickets are only 50 cents and you should all attend. Everything will be conducted in the most orderly way and a large crowd will doubtless attend.

In Charge of the Irvin House.

The Irvin house, Lock Haven, is once more in charge of its old manager, Hon. S. Woods Caldwell. Mr. Caldwell assumed control on Thursday, which will be agreeable news to its former patrons. Mr. Caldwell is a genial and an accommodating host and is up to the times in hotel management.

Large Gathering of Tramps.

Forty-seven tramps who were congregated in what is known as the "sand house" at Newberry junction were driven from their quarters yesterday by the citizens. The tramps had become a nuisance and their constant begging for food became tiresome. Some of the forty seven will no doubt reach this city in their wonderings.

Dr. Parkhurst on Clubs.

Dr. Parkhurst will pay his respects to club and club-life in his article in the next issue of *The Ladies' Home Journal*. "I consider the club," writes the great reformer, "to be one of the cleverest devices of the devil to prevent homes being made, and to sterilize and undermine them when they are made.

Letters and Language.

Nothing better illustrates the ratio in which the different letters are used in our language than a set of figures on the proportionate number of types that are to be found in the printers case, which are usually as follows: z 2, and j 5, q 6, k 8, v 15, b and g 20, p 24, w and y 25, m and f 30, c 40, u 45, d and l 150, h 60, r 70, n o and s 80, a and i 90, t 100 and e 140,

—A fresh shipment of nice Mackerel just received, at Eureka Grocery store will be closed out at 10cts. each or 3 for 25cts. tf

New County Fever.

The new county fever seems to be spreading in all directions. With Quay county pretty well assured and Moony county certain to surround Carbondale in course of time another scheme is suggested of making a new county out of parts of Centre, Clearfield and Blair, with Philipsburg, as the county seat. This notion originated in Philipsburg, of course. We believe there would be an overwhelming protest from every part of the state against any proposition to dismember Centre county. It is the home of Governors, and sooner or later it will undoubtedly be found convenient to remove the capital of Pennsylvania to that county. When that time comes all the present room will be needed for the people to rejoice in, and Philipsburg itself will want to be in along with the rest. If that town should go fooling around much just as likely as not it may land in some county from which no Governor was ever elected, and that wouldn't be much to be proud of. While we can look with approbation upon the Quay county and Mooney county movements we hope this latest new county project is only a joke.—Philadelphia Press.

Shope School Report.

Following is a report of Shope school for the fourth month, ending Feb. 14th, 1895:

Number of pupils enrolled, males 25, females 21, total 46. Oscar DeLong was present every day. Zereida and Sadie Zimmerman, Myrtle Myers, Ira and J. B. Kephart, Cameron Kreps, Freddie Gray and Homer Noll missed one day. Those not missing any words in spelling were Ella, Sadie and Zerelda Zimmerman, Rebecca Harvey, Bertha and Clayton Shope, Bertha Corman, Lizzie Swartz, Oscar DeLong, Homer Noll and W. J. Brooks. Those missing one word were Joseph Harvey, J. B. Kephart and Hersey Corman.

M. V. Thomas, Teacher.

Depth of Snow in Clearfield.

A Clearfield correspondent to the Bulletin says: On the authority of a number of log jobbers and timber makers from different parts of the county it is learned that the snow ranges in depth from 36 to 49 inches on the level in the wood lands. This means the natural body of snow just as it fell, and does not have any reference to the big drifts near Salem, a few miles east of DuBois, where the township road supervisors have tunneled through them and teams of horses with loaded wagon now pass through these tunneled drifts every day.

Lumbering Operations.

Renovo Record: Mr. J. C. Pluff, of Hyner, was in town Monday. He reports lumbering operations very quiet in that section. Weaver & Co. have put in about 1,000,000 feet of logs, which they will manufacture into lumber at their new mill next summer. The Forewell Bros. will have three rafts of logs ready for the spring freshet.

A few winters ago over 100 timber rafts were sent from Lumber City, above Clearfield; this year Squire J. M. Caldwell is authority for the statement that only one hemlock raft of 8,000 feet will be put into the river from that place.

Mill Hall Brick Works.

The building of the Mill Hall brick works are all completed. The new machinery is all on the ground and will soon be placed in position. The bins and elevator will soon be constructed. The manufacture of brick will begin as soon as spring opens.

The demand for brick the coming season promises to be great, which is an indication that building operations will be brisk. The Mill Hall works are receiving inquiries from all sections for brick as manufactured by the company. Three o these inquiries were about orders numbering 600,000, 400,000 and 200,000. Besides these there have been inquiries about orders of smaller quantities.

"MOTHERS' FRIEND"
Is a scientifically prepared liniment and harmless; every ingredient is of recognized value and in constant use by the medical profession. It shortens labor, lessens pain, dimishes danger to life of Mother and Child. Book "TO MOTHERS" mailed free, containing valuable information and voluntary testimonials.
Sent by Express or mail, on receipt of price, $1. per bottle. Sold by All Druggists.

Millheim Murmurings.

During the late severe snow storm there were not less than ten individuals who had to make themselves at home in this place and none of them were anxious to see the storm continue.

Miss Dodie Musser, the handsome and accomplished daughter of W. S. Musser, the proprietor of the Musser House, was somewhat disappointed at not seeing all her invited guests present at her home on last Friday, it being the seventeenth anniversary of her birth.

Our photographers are going to leave this place by the first of April. They will go to Reading, Pa. All are very sorry to lose them as they are very nice gentlemen.

Mr. Jerome Spigelmyer has purchased the Gephart property, located west of Mr. Musser's house in this place. He will move his large store in this place in the spring. Mr. Newin A. Auman will fit up a first-class restaurant in the room now occupied by Spegelmyer.

Mr. George Cummings, Mr Musser's coachman, had a severe trial in the late blizzard and now he says once of that kind of weather is enough for him.

Mr. George L. Springer will soon move from his present location into the old hardware building room formerly occupied as a butcher shop.

Dr. J. W. Stamm has returned to Millheim again after an absence of about three years. He has begun to practice and will move his family here in the spring.

Mr. Charles Albright had to make a tunnel 35 feet long through a hugh snow drift. It took him a day and a half to do the work, and now he has a notice up "keep off the drift."

The Hartman foundry company are kept very busy making and repairing plows and other foundry castings.

The Millheim *Journal* came out two days late last week, on account of the recent blizzard.

The writer spent an hour very quickly on a ramble with Mine Host, W. S Musser, of the Musser House. This gentleman has always treated us with the greatest kindness and he will please accept our sincere thanks.

Mr. J. Miller, the boot and shoe merchant, offers his entire stock for sale. He intends quitting the business on account of ill health. x x

Table Talk.

Table Talk for February opens with an interesting article on "Mushrooms and Toadstools" by Julius Palmer, the renowned authority on such subjects. This is followed by the usual departments in which this month, the receipts alone number fully three dozen and which are also given the latest notes on fashions, serving, and all questions of interest to the housekeeper and homemaker. There are also the menus for the month, a lesson in Dietics, the Washington letter on society doings at the Capitol and an article, "Over the tea-cups, a bright readable resume of the latest popular books.

Our readers can see a sample copy by addressing Table Talk Publishing Co., Philadelphia, Pa.

Election Officers Outfit.

Under the present ballot law the outfit for an election board is almost as big as a congressman's et ceteras. It consists of the following:

Three triplicate election return papers, two tally sheets of voters, eighteen certificates of election, one special instruction card, one seal paper for ballot box, one expense sheet, twenty directions to voters, six cards of directions, two oaths of office, one voting check list, one ballot check list twenty penality notices, six card penalty notices, two registry books of voters, one statement, three blotters, three blank paper sheets, six lead pencils, two pen holders, three pens, one piece of sealing wax, five yards tape, one wrapper for unused tickets, two large envelopes, four return envelopes, and fifty forms of oaths.

Flags on School Houses.

Bills are being introduced in the legislature to furnish, or have flags floated from all school houses in the state. Different societies have furnished American flags for different school houses but they are seldom seen floating from those colleges of the people. Schools are kept up by the government, and like all government buildings the American flag should float over them during the time schools are in session. By negligence or from some other cause, this is not done in Centre county. What is the use of the possession of an American flag unless put to its proper use?

An Unpopular Custom Abolished.

A bill to abolish the custon of kissing the Bible in courts passed the house this week in a slightly amended form after Mr. Fow, of Philadelphia, had told how the custom originated in a German monastery in the third century. A monk had a casket of precious relics of saints which he commanded his fellow monks to kiss whenever their testimony of affairs of moment was heard. Mr. Fow dwelt upon the danger of disease from kissing the Bible in courts of justice and referred to the fact that Judge McPherson, of Harrisburg, had abolished the custom of his own volition.

—Somebody stole Cruse's candle during Friday night, and now the farmer from up the country who "guessed" it would burn 24 hours might be the nearest, after all. It is said that Cruse will pay a reward of $10 for the arrest of the thief.

Babies and Children
thrive on Scott's Emulsion when all the rest of their food seems to go to waste. Thin Babies and Weak Children grow *strong, plump and healthy* by taking it.
Scott's Emulsion
overcomes inherited weakness and all the tendencies toward Emaciation or Consumption. Thin, weak babies and growing children and all persons suffering from Loss of Flesh, Weak Lungs, Chronic Coughs, and Wasting Diseases will receive untold benefits from this great nourishment. The formula for making Scott's Emulsion has been endorsed by the medical world for *twenty years*. No secret about it.

FACTS FOR OUR READERS.

Follow Nature and Keep Well, a Good Rule.

THE QUESTION IS IMPORTANT, ARE YOU PREPARED FOR SPRING?

If Not, Here is Some Very Necessary Information for You.

Nature will soon begin her annual struggle for freedom from winter's icy imprisonment. Already beneath the frozen surface, giant forces are moving in that direction. Purification is going on.

It is the same with the human system. The lengthening days are approaching when the blood seeks to recover from its sluggish inactivity, and it bears in its course germs of health or disease, as it has stored up the one or the other. It requires therefore to be enriched with vitalizing and health giving qualities to give tone, vigor and health to the system.

For this needed and beneficial service nothing is so powerful as Dr. Greene's Nervura blood and nerve remedy. Like Nature's own wondrous remedies in the physical world, which purify the mountains and streams as they leap from their confines to fill the valleys with new life, and cover orchard and field with flower and fruit, it brings new force and health to wasted tissues and enfeebled nerves.

Now is the time when your nature calls for help. Don't mistake; no other remedy equals Dr. Greene's Nervura blood and nerve remedy as a spring medicine. No other remedy will so quickly and certainly strengthen your nerves, invigorate your blood, and correct the action of all your organs. It will make you well and strong as it has done thousands of persons; as it did Mrs. W. A. Cutler, of 59 Orchard St, Worcester, Mass.

"A year ago," she says, "I fell ill with nervous prostration and neuralgia, which affected my whole system. My digestion was also very poor. After eating I would be taken with a smothering sensation, while the palpitation of the heart was terrible.

"Severe nervous headaches made my life miserable in connection with these other troubles. I was in a fearful condition, and became greatly discouraged. I consulted physicians and treated with them, but with no benefit. Nothing I took did me any good.

"Finally as a last resource, I commenced to use Dr. Greene's Nervura blood and nerve remedy, which had been wonderfully praised to me. With the first bottle I noticed an improvement, and persevering in its use, I continued to steadily gain in every respect.

"My nervousness was soon cured. The neugalgia, headaches, palpitation of the heart, indigestion and all my complaints entirely left me. All this was accomplished by Dr. Greene's Nervura blood and nerve remedy.

"This wonderful medicine did for me what all the doctors and their medicines could not do. I wish to urge all sufferers to try it."

No power of words can describe the wonderful good which this remedy is doing among the sick and suffering. Those who take it are cured. Thousands of people, at the advent of spring, while not exactly sick, are yet out of order or ailing in some way. They do not feel just right, are not well and strong, cannot eat or sleep well, are nervous, and have no strength or ambition for work or pleasure. Their stomach, bowels, liver or kidneys are inactive and torpid. Such people need this best of all spring medicines, Dr. Greene's Nervura blood and nerve remedy, to restore the natural action of these organs, give strength and vigor to the nerves and new life and vitality to the blood.

Why lose time in trying uncertain and untried remedies, when here is a physician's prescription, a discovery made by the greatest living specialist in curing nervous and chronic diseases, Dr. Greene, of 35 West 14th St. New York City. If you take this medicine, you can consider yourself under Dr. Greene's direct professional care, and you can consult him or write to him about your case, freely and without charge. This is a guarantee that this medicine will cure, possessed by no other medicine in the world.

Bring Back the Books.

A fact that is causing considerable annoyance is the large number of books which belong to the Y. M. C. A. library which are carried away and never brought back again. It is requested by Secretary Cota that all persons having books belonging to the association bring them back at once so that other people will be enabled to read the books at the rooms. That is what the rooms are for. A place where young men can go and read.

Admit its Efficacy.

The interest taken by the almost miraculous cures made by Dr. Kennedy's Favorite Remedy, at Athens, N. Y., and other places, resulted in Athens, N. Y., Journal sending a special representative to Athens to investigate the case, and it was found that many of the cures made by this medicine were simply wonderful.

In the cases of Mr. Lewis Clow, who had chronic kidney disease, Mrs. Casper Brooks suffering from female troubles, and Mrs. Wm. Tiffany, who suffered from general prostration, all of these cases were abandoned by their attending physicians. Dr. David Kenedy's Favorite Remedy was then used by them in every case an absolute cure was effected.

—It tried to snow to-day but failed.

AN ACTRESS MURDERED.

Madge Yorke Almost Instantly Killed by James B. Gentry.

Philadelphia, February 17.—Madge Yorke, aged 22 years, a member of Charles E. Blaney's "Baggage Check" company, was almost instantly killed in a room at Zeisse's hotel this evening by James B Gentry, an actor. After doing the shooting Gentry escaped and has not yet been captured. Gentry is said to have been engaged to be married to Miss Yorke, and it is supposed jealousy was the motive of the crime. About 9.15 this evening Gentry called at Zeisse's hotel and inquired for Miss Yorke. He was told that she was in and asked to send his name to her room. He declined to do this and said if they would show him where the room was he would go to it himself. This he did and found Miss Yorke and another actress of the company, Miss Lida Clarke, in the room together.

Miss Yorke introduced Miss Clarke to Gentry, but he took no heed to the introduction, and, turning to Miss Yorke, said: "Why didn't you meet me?" and then without another word, he began to fire at her with a revolver, three bullets of which went through her head and one through her arm. Gentry rushed from the room and either made his escape by the stairs or went down a fire escape leading from a window in the hallway, but he was not seen to leave the house.

An ambulance was hastily summoned and Miss Yorke was taken to the hospital, but she died shortly after being admitted there. The girl lived with her parents in New York City and she is said to have been in that city to-day and returned here this afternoon, but some of the members of the company deny that she was out of Philadelphia to-day. Gentry came from New York this afternoon and probably went direct to Zeisse's hotel. Miss Yorke filled one of the minor singing parts in the "Bagage Check" company. Gentry is a comedian, but at present has no employment.

It was learned from members of the company that Gentry has been very attentive to Miss Yorke, and that they had not seen each other for the past five weeks. They probably had an appointment to meet each other in New York today, as the girl went there this morning, but for some reason she did not see Gentry. Miss Clark, who was in the room when the shooting occurred, says that Gentry paid no attention to Miss Yorke's introduction of him to her, and turning to his fiancee, said: "Why didn't you meet me in New York to-day as you promised?" Miss Yorke replied: "I did keep my appointment with you." Gentry then said: "Madge, won't you kiss me?" and the girl replied: "No; not until you give me an explanation of your conduct." These were the last words spoken before Gentry drew his revolver and shot and killed the girl. It is said that Gentry must have come to this city with the idea of murder, as his friends here state that he was not in the habit of carrying a revolver.

Found a Nice Nest Egg.

Quincy, Ill., Feb. 18.—Thomas French, an old stonemason, of Mendon, died during the past week. When his cousins began to search his effects yesterday they found in an apparently discarded bureau $5,500 in gold, all in English coin, consisting of sovereigns, guineas and crowns. They also found $350 in United States greenbacks sewed in his clothes.

A Murderer Still Missing.

Philadelphia, February 19—Up to 1 o'clock this morning nothing has been heard of James B. Gentry, the actor, who Sunday night murdered Madge Yorke, by shooting her to death at her room at the hotel. The idea that Gentry has committed suicide is scouted by most of the members of the "Baggage Check" company, and they believe that he is in hiding at the house of some friend here in the city.

Miss Lida Clark, a member of the company, who was in the room when Gentry shot Miss Yorke, asserts that the actor was crazy drunk when he committed the act.

It is now said that Gentry was jealous of the attentions paid to Miss Yorke by an actor of the company in which she played, and this may have been one of the reasons why he killed the girl.

New York, February 18—Detectives were sent out from the central offices to look for James B. Gentry, the murder of Miss Madge Yorke, the actress early today but up to 11 o'clock to night no clue of the man has been obtained. Every policeman on the force has been furnished with a description of Gentry.

More Applicants Than Offices.

Harrisburg, Feb. 18.—The governor is besieged with applications for the places in the department of agriculture created by the bill on the calendar for second reading in the senate. Chairman Moore, of the agriculture committee, who had charge of the bill in the house, is a formidable aspirant for dairy and food commissioner in the proposed new department. Other aspirants are the incumbent, Eastburn Reeder, of Bucks; J. Cheston Morris, of Philadelphia; Captain Levi Wells, of Bradford, and Jason Sexton, superintendent of William M. Singerly's Montgomery county farm. Commissioner Reeder is being urged by Justice Fell and the leading dairymen and farmers in Eastern Pennsylvania, and is opposed by Chairman Gilkeson, of the state republican committee, a neighbor. The grangers are urging the appointment of Moore, who is a member of the state grange legislative committee. Dr. B. H. Warren, of West Chester, state ornithologist and author of the famous "Bird Book," may be economic zoologist.

Hayard Murder Trial.

Minneapolis, Feb. 18.—Maggie Wachther, the star witness for the defense told her story this afternoon and the true inwardness of the Hayward defense is coming to the surface. From increasing evidence, that Adry was in some way connected with the murder, the belief is gaining credence that both men were mixed up in the plot. There is certainly expressed in some quarters that the state is aware of Adry's complicity, but has promised him immunity for his testimony against Harry. In this event the defense will be able to prove its alibi for Harry Hayward and that it was Adry who met Blixt on Kenwood boulevard. The defense will try to prove by testimony that Hayward really had the money which he claims to have loaned Miss Ging, taking the insurance policies as securities.

—A free entertainment will be given by the Lutherans at their church to-morrow evening.

—Eustace B. Grimes, formerly of this place, has been appointed a deputy revenue collector by Collector Doyle, of Philadelphia.

$100.00 GIVEN AWAY!

A NEW DEPARTURE.

In order to encourage and increase our cash trade, we will give you a

Five-cent Money Order

with each **One Dollar's** worth of goods purchased at this store, and when **Twenty** of these Money Orders are presented at any one time we will redeem them, paying

$1.00 in Cash or Merchandise

for them whenever presented. Everybody should avail themselves of this unequaled offer.

This store is headquarters for everything in its line, and the prices are the very lowest consistent with the best grades of goods.

Come and Bring Your Friends,

and ask for a Money Order. Please remember that Money Orders are given only with cash purchases.

The Eureka Grocery,

What is CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."

DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."

DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."

H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."

UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

The greatest stock of Rubbers in the county of the very best make and at correspondingly low prices.

One lot men's good, heavy winter shirts worth $1, now 49c.

The best unbleached muslin 4, 4½ and 5c.

The very best bleached Muslin 6½ and 7c.

Tickings from 7c up.

Ladies' Corsets from 18c up.

We have no space to detail our entire stock but the above will give an idea of what we propose to do for the next 30 days. You will remember that we have sold goods cheaper the past season than has ever been known before. Now we have made the above reduction even from that basis. We must move our winter stock, as we propose to have a great line of Spring goods in due season.

LYON & CO

BELLEFONTE, PA.

Found Unconscious.

A sad accident happened last night to Mrs. Benjamin Aikey who lives a short distance this side of Curtin's works. While attending to her household duties she had occasion to go out into the back yard. Upon returning from there she slipped on the ice and fell striking her head on the edge of a board and was rendered unconscious. Her husband was away at work in the mines and she was not discovered until an hour or so after the accident had happened. After working with her for some time she was partially restored but is still very weak owing to the exposure to the cold.

—Itch on human, mange of horses, dogs and all stock, cured in 30 minutes by Woolford's Sanitary Lotion. This never fails. Sold by F. Potts Green, druggist, Bellefonte, Pa. v26-5-1y

Will Take a Western Trip.

The Glee and Banjo club of State College is fast coming into prominence. Meeting with such good success while on their trip last year induces them to go again. Next week they will go to Altoona, Williamsport and Towanda and returning for two days they will then make their first trip to the western part of the state. After all their engagements have been filled they will go to Harrisburg at the expense of the college and play before the Legislature. The boys are working hard to make the trip a success and it is to be hoped that they will be greeted with crowded houses everywhere they go.

The Standard

remedy for all stomach and liver complaints is Ripan's Tabules. One Tabule gives relief, but in severe cases one should be taken after each meal until the trouble has disappeared.

AS TO THE K. OF L.

Why There Was a Break in the Body in Session at Columbus.

Columbus, O., February 14.—The conference committee of the seceding miners from the general assembly of the Knights of Labor, after an all-night session, issued an address to the members setting forth their reason for secession, covering the New Orleans convention, and commenting in general terms upon the mismanagement of the affairs of the association during the past year. The address is as follows:

To the members of the Knights of Labor When the bad combine the good must associate, else they will fall, one by one, an unpitied sacrifice in a contemptible struggle. Never was the truth of this more plainly manifest than at present within the order of the Knights of Labor. A train of abuses and usurpations culminating in the late general assembly held at New Orleans causes us to set forth the following reasons for our action in establishing the Independent Order of the Knights of Labor.

Representatives duly elect by bodies legally constituted under the laws of the order were denied admission, and persons entitled to no legal recognition were seated thereby enabli esigning individuals to continue a conduct of affairs calculated to enrich themselves and disrupt the order.

That since the adjournment of the late general assembly at New Orleans not only individuals, but in many cases local and even district assemblies, have been compelled to suffer the humilation of suspension or expulsion without the opportunity of defense.

During the past year the general officers placed a mortgage of $20,000 on the general headquarters building at Philadelphia The amount of money thus raised, together with all the revenues of the current year found them unable to pay the full amount of mileage due representatives in attendance at the late general assembly at New Orleans.

General officers of the order, while drawing salary from its members, have been engaged in tne formation of corporation for private profit, going so far as to advocate the giving away of stock in such corporations for the purpose of securing franchises.

In view of the forgoing facts we ask the assistance and co-operation of all who believe in carrying out the principles of the order as originally intended.

[Signed] W. B. WILSON,
CHARLES R. MARTIN,
Independent Order of the Knights of Labor.

The organization was completed by the election of the following officers: General master workman, W. B. Wilson, Blossburg, Pa.; worthy foreman, James L. Michaels, Pittsburg, Pa.; secretary-treasurer, Charles R. Martin, Triffin, O.

It is believed that the formation of the new organization will disrupt the old, as it is said there are now only 15,000 members to support the Sovereign-Hayes faction. while the newly organized order will have a membership of 45,000.

A Decision by Judge Lynch.

Wilkesbarre, Pa., February 14.—Judge Lynch handed down a decision in court to-day which virtually seals the fate of the boy murderer, William Penn Bowman, and unless his attorneys succeed in getting the supreme court to interfere it is more than likely that young Bowman will suffer the death penalty for the murder of John Mike, the Arabian peddler.

Immediately after his conviction his attorneys filed reasons for a new trial, which Judge Lynch to-day refused by discharging the rule to show cause why a new trial should not be granted.

Bowman was informed of the decision by Warden Jones at the jail this afternoon, who asked him if he had anything to say. "No," replied Bowman, "I haven't anything to say. When will I receive my sentence?" He was told that it would be on Saturday next and replied cheerfully, "All right." Bowman's mother was with him at the time and took the news coolly. His attorneys are now making preparations to carry the case to the supreme court.

The House Defeats the Bill.

Washington, February 14.—Another day's debate in the house on the financial question has but served to emphasize the fact that no legislation affecting the financial situation is to be expected from the Fifty-third congress. A week ago the house refused to adopt the last Springer banking and currency bill which contained a provision authorizing the issue of long-time low-interest bonds, and to-day, by a still more decisive vote of 167 to 120, it declined to authorize the issue of sixty five million 3 per cent bonds with which to replace the 3½ per cents negotiated with the Morgan-Belmont syndicate.

The consideration of the joint resolution for this purpose reported yesterday from the committee on ways and means by Chairman Wilson occupied all of the session of six and one half hours, and the discussion attracted an attendance of spectators which overflowed the public galleries and encroached upon that reserved for the diplomatic corps and other distinguished visitors. The debate followed, in a general way, the lines of the debate on the Springer bill last week, but the opposition today was much more aggressive than on that occasion.

Miss Vanderbilt To Wed.

New York, Feb. 14.—Mrs. William K. Vanderbilt and her daughter, Consuelo, are going abroad at once. They will sail either Saturday or Wednesday. Those who should know assert that there is no question that all arrangements have been completed for the betrothal of Consuelo to a English nobleman of highest rank and grandest establishment, and that this will be announced very shortly after Mrs. Vanderbilt and her daughter reach the other side. A young man, bearing an old family first name, prefixed with a prominent Boston family surname, has been all devotion to Consuelo, and she was apparently most happy in his attentions. This joyousness must now be relegated to the saddest of all "might have beens." Consuelo, as an only daughter, will eventually fall heir to a colossal fortune.

Brooklyn Strikers Stick.

New York, Feb. 14.—At a late hour tonight Master Workman Connelly, who has been managing the Brooklyn trolley strike, announced that the delegates from the local assemblies had voted to continue the strike. The delegates held a protracted meeting at headquarters. The discussion was heated at times, and it is understood that impassioned appeals were made to the delegates to held together a little longer. They finally decided to do so, although the decision was by no means unanimous.

It is reported that the Grand Jury has found a true bill against Benjamin Norton and D. J. Quinn, president and superintendent of the Atlantic Avenue railroad, for violation of the 10-hour law on complaint of several strikers.

Hayward Murder Trial.

Minneapolis, Feb. 14.—The defense opened to-day in the Hayward murder trial. In his opening for the defense, Lawyer Smith announced that they would introduce no theory but would be able to prove an alibi for Hayward. Evidence wouldbe produced to shatter Blitt's testimony in several material points, and it would be shown that Ardry's motive for testifying against his brother was one o insane jealousy, which means that there will be another airing of the Hayward family skeleton. One witness was examined relative to Blitt's movements in another part of the town on the night of the murder, but nothing material was brought out. Hayward's presence at the theatre on the night of the murder was proved by ushers at the Grand opera house.

Death of Minister Gray.

City of Mexico, Feb. 14.—Isaac P. Gray, United States minister to Mexico, died this evening at 7.10 o'clock. Shortly before the end apoplexy supervened and the patient was bled, but to no purpose. Isaac P. Gray was a prominent figure in Indiana politics, having served as governor and had been strongly endorsed for the presidency. His was the first diplomatic appointment made by President Cleveland on entering upon his second term.

Shot in a Quarrel.

Norristown, Feb. 14.—Frank Pedrick, a blacksmith, and James Sweeny, a wheelright, both employed at Howelville, ten miles from here, quarreled this afternoon. Pedrick was getting the better of Sweeney, when the latter pulled a revolver from his pocket and shot Pedrick over the heart. He is not expected to live. Sweeney is 24 years old and well connected. He made his escape and has not yet been apprehended. Pedrick is the village postmaster.

—Beaver & Dale are moving their law office to-day from the building opposite Parrish's drug store to the second floor of the new Temple Court.

—Beaver & Dale are now snugly ensconced in their new quarters in "Temple Court" and are as happy as two canaries in a brand new cage.

SLOWLY STARVING.

Surrounded by Plenty, but Dying for Food.

An Every-day Occurrence.—Our Friends Perishing Before Our Eyes.

A terrible experience for any one to go through, that of seeing some beloved friend actually wasting away before our eyes, unable to derive sufficient nourishment from their food to sustain life.

Medicine naturally becomes of little avail, and the various organs of the body, debilitated from a lack of nourishment, take on themselves the disease that was originally the cause of the "breakdown," and help hasten the end.

Such cases, though too prevalent, are happily becoming less frequent. The prominent physicians of to-day do things differently from those of twenty years ago. They first put the patient in a condition to stand the "siege," then enrich his blood, create for him new strength, and "build him up" generally. The patient is then in a condition to derive benefit from his medicine.

This is done by the use of Bovinine, the original raw food. It is an extract that contains the greatest amount of the life-sustaining and tissue-building properties of lean, raw meat, concentrated in the least possible bulk.

The advantage of this is obvious. A patient already greatly weakened by disease, needs to husband every particle of strength. A few drops of Bovinine will impart as much nourishment to the body as would be derived by a well person from an ordinary meal; and, in getting this nourishment, the stomach has been forced to do the least possible amount of work.

Bovinine, continued throughout an illness, greatly hastens recovery. Taken at the beginning of a wasting disease, it diverts the cause of the trouble by toning up the various organs, and getting them in a normal condition.

Bovinine is indorsed by 25,000 doctors. Its action is always beneficial, as a single trial will convince the most sceptical.

SHOCK FOR HAYWARD.

Hard Evidence Against Him Given By Witnesses.

Minneapolis, Minn., Feb. 15—The even of the day in the Hayward case was the testimony of M. D. Wilson, called by the defense. Mr. Wilson asserted that the lawyers for both sides had called on him for information, but he absolutely declined to talk until placed on the stand. Therefore, neither side was able to know what the nature of his testimony would be. In answer to questions this afternoon he said he had known Miss Ging for several years as a customer when he had kept a livery barn down-town. He was sure it was her he saw in the Goosman rig the night of the murder, driving out Lyndal avenue and turning into Kenwood boulevard. He did not know that the man with her at that time was Harry Hayward, for he had not up to that time met the defendant. Two days later when he saw him at the police station, however, he recognized him. This statement was evidently quite a shock to the defense and was also a surprise to the prosecution. Court adjourned soon after, as Mr. Erwin had no other witnesses ready.

The defense to-day resumed its efforts to impeach the testimony of Claus A. Blixt, the particular line of attack being against the story Blixt told on the stand of having gone to see some acquaintances in South Minneapolis immediately after the commission of the crime. The evidence of Ole Thorsen, his wife, and Mary Larson established at least a doubt that Blixt visited the house on Twelfth avenue, south, which he claimed to have visited that night.

Among the other witnesses examined during the afternoon was Charles Bartleson, the attorney, whose daughter, Mabel went to the theater with Harry the night of the murder. He said that Harry came to the house about five minutes before 8 o'clock and that he and the young lady left in a very few minutes. They returned about 10.45. Mr. Bartleson further said he had been interviewed by Harry as to the proper manner in which to have assignments of insurance made and had given advice.

The House Quits.

Washington, Feb. 15.—There will be no further financial legislation attempted by the house at this session. The defeat of two banking bills and one bank bill in quick succession satisfies the democratic leaders that a majority of the house cannot be brought to the support of any measure. There was a talk in the house to-day that some measure of financial relief might be engrafted upon the general deficiency appropriation bill when it is taken up in the senate, and it is not definitely known if this attempt will be seriously made. The members of the house are now looking forward with impatience to adjournment, and the committee on rules is constantly importuned for special orders for certain important bills that have not yet received consideration by the house, but which can be rushed through the senate, it is believed, if they can reach that body during the last week of the session. One of these is the naval reorganization bill and another is the Nicaragua canal bill. All talk of an extra session has ended and it is believed that when congress adjourns on the 4th of March next it will not be asked to convene again until the regular meeting day in December.

Blamed By Smallwood.

Brownsville, Pa., Feb. 15.—Riley and "Ranch" Huey were arrested here last night, charged with burglary and robbery. The information was made by Frank Smallwood before a justice at Fredericktown. Some persons broke into the Smallwood house Sunday, February 3. The robbers found only $4 in the house. They carried Smallwood to the grate fire, over which they held his feet until they were burned to a crisp. The robbers left him bound.

Smallwood, before Justice Pringle, positively claimed that the prisoners are two of the robbers. He also said there were two others, both of whom he would recognize if brought face to face with them. They would only say that they could prove an alibi. Officer Sargent took the prisoners to jail at Washington to await trial at the March term of court.

Four Dwellings Burned.

Lewistown, Pa., February 15.—Fire this morning destroyed four dwelling houses on Valley street, causing a loss of in the neighborhood of $8,000. Three of the houses were occupied and one vacant. The fire originated from a defective flue in the house occupied by Allison McCafferty and communicated to those adjoining it. It had been smouldering between the first and second stories from about 9 o'clock last evening and the alarm was given about 2 o'clock this morning. Three of the houses were tenement houses and the fourth was owned and occupied by Samuel Shade, esq., a prominent attorney. The fire raged for over three hours, but was under control the greater part of the time. An insufficient water supply rendered the work of the firemen difficult. All were insured almost to the extent of their value.

An Awful Accident.

Akron, O., Feb. 15.—Maggie and Augustus Wise, aged 19 and 17 years respectfully daughters of Joseph Wise, one of the most wealthy farmers in Portage county, living at Randolph, were working in a summer kitchen to-day. Maggie took a loaded shot gun from the wall and started to carry it into the house. The hammer struck on the door and discharged the load of one barrel into the face of Augusta, tearing the head completely to pieces. The sister is crazed with grief.

Pa and Ma Eloped.

Napoleon, O., Feb. 14.—John Rollins, who lives just over the line, in Putnam county, a year ago married the widow Dalyring, who has a daughter of 17. John eloped with the daughter yesterday, and the wife eloped with John's 23-year-old son. Both father and son are wealthy farmers, owning large tracts of land, and both occupied the same large house a lifetime.

The father and his inamorata went East, possibly to Pittsburg. Her attorney has filed a petition for divorce, and the old man's lawyer will doubtless soon receive instructions to file a cross petition.

Many believe that the two couples will be living amicably in the same house a year from now, the father married to his step-daughter, while his son will wed his father's wife.

Can Proceed to Collect.

Washington, February 15.—The district court of appeals to-day declined to grant an appeal from the decision of the lower court refusing an injunction to prevent the collection of the income tax. An injunction was asked for by John G Moore of New York, to restrain Joseph S Miller, commissioner of internal revenue, from any collection of the income tax. Chief Justice Alvey declares that there appears to be no good ground or cause for an injunction to restrain the commissioner of internal revenue from proceeding with the work of his bureau in regard to the assessment and collection of the income tax.

Can Outstrip all Competitors.

Johnstown, Feb. 14.—The Cambria Iron company, after long and tedious experiments, has found that the three high continuous rail mill is far superior to the two high reversible mill in the manufacture of street and girder rails. It is asserted that the Cambria company's discovery places them in a position to outstrip all competitors in the porduction of every conceivable shape of girder rails, and that it is only a question of a short time when the two high mill will not be "in it."

Steamer Long Over-Due.

Philadelphia, Pa., Feb. 15—Much anxiety is felt here over the safety of the British steamship Kingdon, Capt, Jones which sailed from Hamburg December 18 last for this port via Charleston. The last report of her was on December 24, when she was signaled from the light station at the Butt of Lewis, one of the Orkney Isles. At Lloyd's a premium of 60 guineas was asked for her insurance. She has a crew of 40.

Approved by Hastings.

Harrisburg, Pa., February 15.—Governor Hastings has approved the Focht resolution for an investigation of the state institutions to ascertain how many of their inmates are aliens.

The committee to investigate the state hospitals at Wernersville and Norristown will go to work next Thursday. Senator Gobin, of Lebanon, has been chosen chairman.

Interesting Notes.

Trout, benumbed by cold, are being picked up by thousands in New river, N. C.

Numbers of wretched starving Armenians are crossing into Russia from the Erzeroum and Bitlis districts.

Robert E. Craig, trustee of Hamilton county, Tenn., shot and killed his former deputy, A. M. Wamble, in a quarrel at the Russell House in Chattanooga.

At Mount Sterling, Ky., the son of Sheriff Sledd was indicted for complicity in the lynching of Tom Blair. There have been three indictments thus far.

John C. Hall, a San Francisco lawyer, who stole $100,000 four years ago, and deserted his wife and four children, has been located in Johannesburg, South Africa.

STOCK AND PRODUCE MARKETS.

Closing Quotations of the New York and Philadelphia Exchanges.

EAST LIBERTY, Pa., Feb. 12.—Cattle steady, at unchanged prices. Hogs heavy; market slow; Philadelphias, $4.35@4.40; best Yorkers, $4.30@4.25; roughs, $3@3.75. Sheep steady at unchanged prices.

—The new Judicial apportionment bill makes a separate district of Centre county and tackles Huntingdon on to Mifflin.

"WHERE DIRT GATHERS, WASTE RULES."
GREAT SAVING RESULTS FROM THE USE OF
SAPOLIO

Voting Ignorance and Avarice.

The Pennsylvania Senate by refusing to give the constitutional majority to the bill extending the school term to seven months doomed the rural schools of this State to the same disgraceful condition in which they are left by a law which is below that of any State in wealth or population comparable with Pennsylvania.

Senator Hains, of York, and Senator Green, of Berks, with assistance from Senator Critchfield, united in defending the ignorance which a short school term breeds and the avarice which keeps children slaving in the field and dairy when they ought to be on the school bench. It is not the cost of the schools which leads counties holding 100,000 children to limit their term to six months; it is child labor worked for gain when the child should be studying, which the constituents of these Senators refuse to give up. Unfortunately all the State suffers from the policy of these counties which are careless of the priceless future of their children as long as a little can be saved in farm labor by working for another month children of the spelling book age.

Since the rural counties utterly refuse to improve their schools the increased appropriation proposed by a redistribution of State money should be fought by every expedient.

The Mystery of the Snow.

An official of the Pennsylvania railroad said that he doubted if a mystery of the recent blizzard would ever be solved. "I have been concerned with railway tracks in one way or another for upwards of twenty years, and I must admit that this snow was a complete mystery to me. At one time on a short section of the road, just this side of Steelton we had five engines hitched on ahead of the other, and backed up by a heavy train of seven coaches. The snow in front of us was less than three feet deep, and in ordinary circumstances two engines could have forced their way through without any difficulty. We might just as well have run against a sand bank as against that snow. The enormous force of the engines, together with the momentum of the entire train were stopped by the impact of the snow, and if it had been earth packed down solid of a similar height it could not have offered a great resistance. During the second attempt to move the train one of the engines was derailed, and we found that nothing but shovels would be effective in clearing the way. The packed snow was of an altogether extraordinary character."

A Marital Contract.

Some time ago a country swain in Montour county, when about entering into the bonds of matrimony got one of our attorneys to draw up a contract to be signed by his prospective bride, which provided that the latter was to receive none of her relations when she was married; she was to eat no chicken nor turkey, nor to absent herself from home without the consent of her husband, and she signed it. But she was a six footer and he some four to five inches abbreviated, hence physically she was prepared to nullify that contract by wiping up the floor with her spouse—when they were hitched—if she desired to do so, and the indications were that she would sometimes so desire.

—Wait for the "Brownies."

—We omitted to mention on Friday that the florist store of Geo. Baldwin was sold at sheriff's sale on Thursday. It was disposed of piecemeal and the aggregate receipts were $114.00 Mr. Allie Maitland has now ventured in the business at the old stand.

School Appropriation.

The Patriot this morning says: The house education committee will to-day report with amendments the bill introduced by Representative Smith, of Bedford, relative to the distribution of the school appropriation. The bill originally provided that half of the appropriation be given the schools and the balance distributed on the basis of taxables. At this rate each school would receive about $100. Philadelphia's appropriation would be scaled down over $120,000 and Allegheny about $60,000. The bill was amended so that one-third of the appropriation goes direct to the schools and the balance on the taxables. By this change Philadelphia loses about $100,000 and Allegheny $40,000. The purpose of the bill is to give more money to the country districts. The rural members claim that the cities and boroughs have been getting the lion's share of the appropriation. The Seyfert bill requiring each school district to raise by taxation a sum equal to the state appropriation before it would be paid will also be favorably reported. The measure is intended to prevent certain school districts from reducing school taxes in proportion to the appropriation received.

McDade in New Jersey.

C. W. McDade, of San Francisco, who is traveling around the world on a wager in which $300,000 is at stake, reached Rahway, New Jersey, Monday, and called on Mayor Daly, who gave him the customary certificates he is required to get in all cities. McDade had a hard time getting through Jersey snow drifts. Under the terms of the wager he must walk until he reaches New York City to take the steamer for Europe.

—The revival at the A. M. E. church is still going on successfully, church crowded to over flowing every night.

A RETIRED BUSINESS WOMAN.

A Page From Her History.

The important experiences of others are interesting. The following is no exception: "I had been troubled with heart disease 25 years, much of that time very seriously. For five years I was treated by one physician continuously. I was in business, but obliged to retire on account of my health. A physician told my friends that I could not live a month. My feet and limbs were badly swollen, and I was indeed in a serious condition when a gentleman directed my attention to Dr. Miles' New Heart Cure, and said that his sister, who had been afflicted with heart disease, had been cured by the remedy, and was again a strong, healthy woman. I purchased a bottle of the Heart Cure, and in less than an hour after taking the first dose I could feel a decided improvement in the circulation of my blood. When I had taken three doses I could move my ankles, something I had not done for months, and my limbs had been swollen so long that they seemed almost putrified. Before I had taken one bottle of the New Heart Cure the swelling had all gone down, and I was so much better that I did my own work. On my recommendation six others are taking this valuable remedy."—MRS. MORGAN, 569 W. Harrison St., Chicago, Ill.

Dr. Miles' New Heart Cure, a discovery of an eminent specialist in heart disease, is sold by all druggists on a positive guarantee, or sent by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, $1 per bottle, six bottles for $5, express prepaid. It is positively free from all opiates or dangerous drugs.

BY special arangement with the publishers we are SCRIBNER'S MAGAZINE for 1895 and a full years s

The Bellefonte Republican

For $3.75.

If purchased separately these periodicals would cost $4.50.

IT IS THE PLAN OF SCRIBNER'S to give its readers next year a history of the past 25 years in the United States. (1894-95.) These years have been unparralleled in the history of the world for national development and material progress. The narrative will be written in a graphic and picturesque style by President Andrews, of Brown University, and capable artists will illustrate it.

ROBERT GRANT whose "Reflections of a Married Man" will long be remembered, has written a series of articles on "The Art of Living," in which he sets himself to solve, as far as such problems can be solved, questions which beset every well-to-do family. The Income—The dwelling—Household Expenses—Education of Children—Married and Single Life—The Summer Problem, etc., etc. Beautifully illustrated.

GEORGE MEREDITH, whom more than one good authority has pronounced the greatest of living novelists, has written a strong serial, "The Amazing Marriage" to begin in January.

D. HOWELLS, will contribute a novel entitled "The Story of a Play."

IN THE LAND OF DON QUIXOTE will be a series of three sketches illustrated by Daniel Vierge's wonderful drawings.

SINGLE ARTICLES in great variety have been arranged for and the illustrations will be eleborate.

Scribner's For 1895 Will Be Better Than Ever.

If you desire only SCRIBNER'S MAGAZINE remit $3.00 to the Publishers:

Young Peoples Entertainment.

The Young Peoples Society of the Lutheran church will give a social entertainment on next Friday evening, the 22nd in their chapel, which promises to be a very pleasant affair. Several tableaux suitable to the occasion, viz., "Washington's Visions," and 'Uncle Sam's Kitchen;' also a play entitled "Saved," and recitation by Miss Maggie Teats, the well known elocutionist, will help make up the program, the whole interspersed with deligatful music by Miss Ohnmacht and others, concluding with social and light refreshments. Admittance free. Collection at close of exercises.

—Many a good item of news is lost to the newspapers by the modesty of people who hesitate to tell a reporter of matters concerning themselves. Not that they do not want it to appear in print, bnt they are afraid they would be pushing themselves forward. That is wrong. From a reportorial standpoint the man who will stop a newspaper reporter on the street and inform him of what transpired in his vicinity, that he is going to get married, or that his wife entertained friends from a distance, etc., is the best man on earth. May his like increase throught the world.

THE DEADLY FIREDAMP.

Fatal Explosion in a Mine at Mahoney Plane Yesterday.

Pottsville, Pa., February 18.—A terrific explosion of mine gas took place at 10 o'clock this morning in West Bear Ridge colliery, belonging to the Reading company and located at Mahanoy Plane. The following miners were taken out seriously and probably fatally burned: Anthony Myers and Edward Davis, of Girardville; William Minnich and William Goff, of Ashland; John Lamey, of Mahanoy Plane; William Davis, of Mahanoy Plane, was slightly burned, but was able to walk home. There are still five men in the workings, and these are all supposed to have been suffocated or killed by falling debris. The explosion set fire to the timbers of what is called the Monkey airway, and thus the escape of the five miners was cut off.

Six men are now reported killed. Between 2 and 3 o'clock this afternoon the bodies of the five men left in the mine were recovered after a hard and dangerous struggle on the part of the rescuing parties, who were fighting in constant fear of being overcome with afterdamp or the smoke of the burning timbers. The five bodies recovered were those of Peter Greenback, St. Clair; Joseph Glitz, Crescent Hill; Thomas Durlain, Girardville; Benjamin Reader, Mahanoy Plane, and Peter Kline, Ashland.

While being taken to the Miner's hospital at Ashland, Anthony Meyers, one of the men rescued this morning, died of his injuries. The heads of the bodies were bruised and scorched and this indicates that they were killed by the force of the explosion. Major Heber S. Thompson of Pottsville, was in the mine at the time, but he escaped without injuries. This colliery which is owned by the Reading Coal and Iron company is situated on the Girard coal lands, of which Mr. Thompson is the general superintendent and he was making an inspection of the mine this morning in his official capacity when the explosion occurred. The origin of the explosion is not known but it is believed that a naked lamp ignited a large body of gas that had been let down when a blast was made in the gangway.

The fire is still burning fiercely, though the employes of the company are fighting it with energy. Several thousand feet of hose were procured from the hose company of Mahanoy Plane and Gilberton and this was put into use. The fire is located in the northwest monkey airway and is in a place not easy of access. The officials hope to be able to extinguish the fire before it gets a hold on the coal. Should the latter disaster follow the mine will have to be flooded, and in that case over 800 men will be thrown idle. This colliery has a capacity of 260,000 tons annually.

Relief in Six Hours.

Distressing Kidney and Bladder diseases relieved in six hours by the "NEW GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise on account of its exceedingly promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. If you want quick relief and cure this is your remedy. Sold by F. Potts Green, Bellefonte, Pa. v26-5-1y

She Died a Heroine.

Greenport, N. Y., Feb. 18.—Lillian McMullen, 15 years old, was drowned yesterday afternoon while crossing Peconic Bay from Shelter Island on the ice. She died like a heroine. Two children, aged respectfully 8 and 10, daughters of Mr. Gordon her employer, were with her. The ice had become rotten with the warm weather and all three suddenly broke through. Lillian bravely grasped the edge of the ice and let the children climb out over her shoulders. Then when she was struggling to get out, the ice broke again and she sank and was carried away by the swift tide.

NEW DISCOVERY.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

We want every one to have a chance to compare silvereen with silver, so for the next sixty days we are going to give away one half dozen Crown Silver Tea Spoons *Free*, to every person who will send for one of our Terry's Silvereen sets, containing six Tea Spoons, one Sugar Shell, one Butter Knife. If at any time the Silvereen goods do not prove satisfactory, return them and your money will be refunded. Remember we give you the Silver Spoons.

Price of Silvereen set, $2.00. f7-2y.
TOLEDO SILVER Co, TOLEDO, O.

A Big Strike Expected.

New York, Feb. 17.—Another strike is expected to take place to-morrow when some 1,200 electrical workers stop work. The men are members of the Knights of Labor. The trouble between the men and their employers who compose the Electrical Contractors' association, is the demand on the part of the men that eight hours shall constitute a day's work, instead of nine, as heretofore. The Electrical contractors' association held a meeting on Saturday, and refused to entertain any proposals from the men in relation to shortening the hours of labor until May 15, at least. Both sides are determined and the result may be one of the biggest strikes that has ever taken place in the building trades of this city. Not only will it include the electrical workers, but all other trades as well, if the bosses try to fill the places of the electrical workers with non-union men. The Central Labor union, at a meeting held to-day, agreed to call out every union mechanic in the building trades if necessary. Should this be done work will be brought to a stands still on a number of large buildings now in course of construction in this city and Brooklyn.

Gentry Arrested.

Philadelphia Feb. 19.—James B. Gentry, the actor who shot and killed Madge Yorke, the actress, was arrested by a policeman to-night at thirty-third and Columbia avenue. He was suffering from a fractured skull and was cut over the heart where he had tried to commit suicide by cutting himself with a penknife. He was taken to the German hospital and is now confined in that institution.

When arrested the fugitive murderer had a fractured skull, a fractured rib, which penetrated the lung covering and and three small stab wounds over his heart, where he had cut himself with a small penknife in an effort to commit suicide.

He was at once hurried to the German hospital and the doctors at that institution considered his condition serious. He was evidently a sick man before he committed the murder and the exhaustion and exposure since then has weakened him greatly.

He is unable to talk with any degree of coherency at present, but stated to the doctors that he had received his wounds by jumping out of a back window of the hotel, and not from a fire escape, as was before reported.

In attempting suicide with the penknife he had opened his shirt and cut himself deliberately as his shirt was found to contain no rent or tear which the knife would make.

Birch Oil Distillery.

A birch oil distillery is one of the industries in prospect for Loganton. The building is now in course of erection and the engine for the same is on the ground. Operations will begin as soon as the building is completed. C H. Morris and Chas. Gephart form the firm that will operate the distillery.

Almost Blind

Inflamed Eyes and Running Sores

The Success of Hood's Causes Great Rejoicing—A Perfect Cure.

Miss Cora B. Ebert
Barnesville, Pa.

"C. I. Hood & Co., Lowell, Mass.:
"I feel it a duty to state what Hood's Sarsaparilla has done for me. I was almost blind, being compelled to stay in a darkened room on account of inflammation of the eyes. I also suffered with running sores on my body. I was in terrible condition. My mother tried every thing she knew about and I was attended by two doctors but without helping me. Finally Hood's Sarsaparilla was recommended and I had not taken two bottles before I began to get better. The inflammation left my eyes and the sores healed, and the result was that

I Became Stronger,

and was restored to perfect health. At that time I was only twelve years old; now I am nineteen and I have not since been troubled with my eyes or noticed any sign of a return of the sores on my body. I can recommend Hood's Sarsaparilla as an excellent blood purifying medicine." MISS CORA EBERT, Barnesville, Pa.

Hood's Sarsaparilla Cures

Hood's Pills act easily, yet promptly and efficiently, on the liver and bowels. 25c.

WRECK AND RONEY.

Snowden Pattison and Bonnaforn Undone in the Quaker City.

Philadelphia, February 19.—Philadelphia today maintained its reputation for stalwat republicanism and elect the candidates of the republican party by a majority of from 45,000 to 55,000.

The election today was for mayor, receiver of taxes, councilmen, police magistrates and school directors. The republicans made a clean sweep and elected their candidates for mayor and receivor of taxes by a greater majority than ever given to similar offices upon local issues. The candidate of the republican party for mayor and receiver of taxes were City Solicitor Charles F. Warwick and Wm. J. Roney respectively. Ex-Governor R. E. Pattison and Colonel Sylvester Bonnaffon, jr., were the candidates of the democratic party for the same offices.

Seldom in the history of local politics has a campaign been so fiercely fought as the one which closed to-night. The democratic papers made a violent assault upon Mr. Warwick and his associates on the ticket and accused them of being the tools of a republican ring that would use them to further the individual interest of certain members of the party.

The republican papers retaliated in kind and scoffed at Mr. Pattison's reform platform and published columns of matter purporting to show that during his recent term as governor he used that office to further in the most partisan manner the interest of the democratic party.

Mr. Warwick in his letter of acceptance, and repeatedly from the platform, denied the charges of the democratic papers that he was under pledges to any one and that if elected he would administer the office of mayor for the best interest of the city of Philadelphia alone.

When Mayor Stuart, the present incumbent of the chief executive of the city, was elected his majority was 39,000, and at the last state election, when Governor Hastings was elected, Philadelphia gave him 85,000 majority.

Philadelphia, February 20.—From the returns received up to 2 o'clock this morning the republican majority would seem to be nearly 60,000.

"A Word to the Wise is Sufficient."

I suffered terribly from roaring in my head during an attack of catarrh, and became very deaf, used Ely's Cream Balm, and in three weeks could hear as well as ever.—A. E. Newman, Graling, Mich.

One of my children had a very bad discharge from the nose. Physicians prescribed without benefit. After using Ely's Cream Balm a short time the disease was cured.—O. A. Cary, Corning, N. Y.

Price of Cream Balm is fifty cents.

Deserves All Good Luck Possible.

Pittsburg, Feb. 19.—When General James A Beaver retired from the governorship of this state in 1890 he was almost impoverished financially, as he had involved himself for liabilities as a member of a company.

Now ex Governor Beaver has paid off the last penny of the amounts he assumed and will, in a short time, if the investments which he carried through adversity turn out as prosperous as is now indicated be worth probably $500,000. General Beaver was president and a prominent director of the Bellefonte iron and rail works, which until the introduction of machinery for making wire nails was a paying plant. It then became worthless and General Beaver gave up all the money he possessed to keep the concern from ruin, but a crash with $300,000 liabilities soon occurred. The ex-governor owns some large coal interests in Clearfield county.

He has also in Wells county, Colorado, possession of much agricultural lands, parts of which he has been able to sell at good advantage. He now has control of a patent for making tinned plates cheaper, it is alleged, than anything discovered, and he is building at Bellefonte a plant for their manufacture.

The National Miners.

Columbus, Feb. 18.—At the session of the National Miners' Convention to-day, Patrick McBryde, of Pennsylvania, W. C. Pearce, of Ohio; P. H. Penna, of Indiana, and J. C. Clarkson, of Iowa, were elected delegates to the convention of the American Federation of Labor, which will meet in New York next December. John McBride was defeated for a delegate, and unless he secures a proxy and gets in the convention in that way, he will be ineligible for re-election as President. A resolution was adopted excluding a local newspaper reporter, because the paper had denounced national officials in strong terms editorially, especially the McBrides.

Married at Early Mass.

At half-past seven Wednesday morning at the close of early mass in the Catholic church William Doll and Miss Emma Gillen were united in the holy bonds of matrimony by Father McArdle. Miss Millie Kelley acted as bridesmaid while George Doll, a brother of the groom, was the best man. A large number of guests were present and at the close of the ceremony the bride and groom were showered with congratulations and good wishes. After the "knot" had been tied the newly married couple with a few friends proceeded to the home of the bride where they partook of a wedding breakfast. It is needless to say they did justice to it. Mr. and Mrs. Doll departed on the 9.32 train for York where they will spend their honeymoon with relatives. Upon their return home they will immediately go to house-keeping on Logan street.

TRAIN JUMPERS ARRESTED.

Two Youths Caught Tampering with the Brakes.

Two young boys, Clayton Lucas, and Arthor Bathurst of Howard, this county, came to grief this morning as the result of their thoughtlessness. For several months past it has been the custome of the boys living near Howard to jump on the freight trains which pass through that place, and after riding a short distance turn on the brakes and then jump off and run causing the train hands considerable annoyance and trouble in turning the brakes off again and several times the train almost came to a dead stop owing to the work of these mischevious youths. After things had been going on this way for some time the railroad company decided to put a stop to it, and accordingly R. W. Curtin Rail Road police of Tyrone was put on the case with instructions to stop it at any cost. Repeated warnings were not enough for the youths so this morning They were arrested at their homes and brought to this place for a hearing before Justice J. B. Linn. The boys were severely reprimanded and the case was settled by the boys paying a fine of fifteen dollars and costs. Before leaving the squire's office they were made promise never to jump on or off trains again.

Terry's Silvereen.

Among the many discoveries of the present age, none rank higher than the new metal silvereen, which owing to its great durability and cheapness is bound to take the place of silver in the manufacture of fine tableware.

Silvereen is a beautiful white metal, will not tarnish or rust, and all goods made from it are warranted.

Annual Ball.

The first annual military ball of the season was held in the handsome armory of Co. B. 5th Reg. last night. A grand street parade was held at 8 o'clock headed by the Coleville band, which also furnished the music for the grand march which commenced at 9 o'clock. The music for the dancing was furnished by the Undine Orchestra. All military men were present in full uniform and a program similar to that of the opening dance was carried out. A number of military men from nearby companies were present.

Gregg Post Dinner.

Every person wanting a good and substantial dinner and supper will find it to his advantage to go to the Post Rooms on High street to-day. Anything and everything that a person could wish will be served. The whole affair is under the management of the Woman's Relief Corps and entertainment Committee of the G. A. R. and the success with which they have met with each year is the best testimonial which could be secured. Business men especially should take advantage of this opportunity to invest a little money to a good purpose.

—Davy Kochler is not frozen, as he turned up bright and smiling in Bellefonte this morning. He is as good as a hundred frozen men.

—It is reported that Mrs. Adam Hoy will move from her present home on Curtin street, to the house on High street which is at present occupied by Dr. H. K. Hoy.

DR. KILMER & Co., BINGHAMTON, N. Y.

Silver Tea Extraordinary.

The ladies of the Episcopal church will hold a silver tea on Thursday evening of this week from 7.30 to 10 o'clock, at the residence of J. C. Harper, Esq., Spring street. Any piece of silver that may be convenient will be the admission fee. The well known and matchless hospitality of these ladies and the recherche quality of their entertainments result in their being largely patronized, as they are always enjoyable. There will be the usual choice refreshments, for which no additional price will be charged. The public are cordially invited.

G. A. R. Encampment.

On account of the G. A. R. Encampment Feb. 27th and 28th, the Central Railroad of Pennsylvania will sell round trip tickets from all points to Williamsport and return Feb. 25th, 26th, 27th and 28th, good to return on or before March 2nd, at one way fare for the round trip Gregg Post of Bellefonte has engaged a special chair car to leave Bellefonte over the Central road at 10.00 a. m., Feb. 27th for the accommodation of its members and friends.

The Golden Star

Gold Mining Company

OF MONTANA.

Capital $300,000 divided into 300,000 shares of $1 par value each.

Non-assessable forever.

This company owns two gold mines located in a county which produced $40,000,000 in gold in six years. Has 45 acres of virgin land. Has 500 feet of underground work in shape of shafts and tunnels. Has ore in sight worth $100 per ton. Has assays from $25 to $1,500 per ton. Has shipped ore netting $36 per ton. Has such a small capitalization, only 300,000 shares and not 2,000,000 shares as other companies.

The company intends to sink a shaft through this rich $100 ore vein to a depth of several hundred feet, in order to be able to produce largely for the benefit of the stockholders which will get this profit in large monthly dividends. Hence the company offers a small amount of its stock at the extremely low price of 40 cents a share.

These shares are the investment on the financial market to-day and are better than Government Bonds as they will pay bigger interest.

Pitcher's

TO FLORIDA.

Personally-Conducted Tours Via Pennsylvania Railroad.

To the large number of people who feel the need of a midwinter as well as a midsummer holiday, the Pennsylvania Railroad Company's personally-conducted tours to Florida especially commend themselves; the excursion rates being most liberal and the style of travel first-class in every particular.

The next of the series of Jacksonville tours, allowing two weeks' stay in Florida, will leave New York and Philadelphia on February 26, and others will leave on March 12 and 26. The rate, including transportation, meals en route, and Pullman berth on special train, is $50.00 from New York, and $48.00 from Philadelphia; proportionate rates from other points.

For further information apply to Ticket Agents, or address Tourist Agent, 1196 Broadway, New York, or Room 411, Broad Street Station, Philadelphia, to whom application for space should also be made.

Her Father Was a King.

Lebanon, Pa., Feb. 15—Mrs. Harriet A Eskins, whose father reigned as king of Guinea, died here yesterday, aged 111 years. She leaves two daughters, Frances J. Eskins, of Williamsport, and Mrs. H. A. Baker, of this city, besides forty-four grandchildren, thirty-seven great grandchildren, eighteen great-great grand children and fourteen great-great-great grand children.

SULPHUR BITTERS

The Best and Purest Medicine EVER MADE.

It will drive the Humor from your system, and make your skin clean and smooth. Those Pimples and Blotches which mar your beauty are caused by impure blood, and can be removed in a short time, if you are wise and use the great blood purifier,

SULPHUR BITTERS. Why suffer with Boils? Why have that terrible Headache? Why have Rheumatism? Why lay and toss on that bed of pain, with Rheumatism? What makes you crumble so?—Your nerves are all gone, and need a gentle soothing tonic to assist nature to repair the damage which your excesses have caused. Sulphur Bitters is not a cheap Rum or poor Whiskey drink, to be taken by the glass, like other preparations which stimulate only TO DESTROY. If you have failed to receive any benefit from other medicines or doctors, do not despair. Use SULPHUR BITTERS. They will cure you where all others fail. No person can remain long sick who uses

SULPHUR Bitters

The Dose is small—only a tea spoonful. It is the best and cheapest medicine. Try it, and you will be satisfied. Get it of your Druggist.

DON'T WAIT. GET IT AT ONCE

If you are suffering from Kidney Disease, and wish to live to old age, use SULPHUR BITTERS They never fail to cure.

VIGOROUS HEALTH FOR MEN

Prof. HARRIS' SOLUBLE MEDICATED Pastille

THE PASTILLE CURE FOR NERVOUS DEBILITY TRADE MARK

Has been put up in a proprietary form since 1878, and has been used for years prior to that time in private practice. It is no untried nostrum, of doubtful reputation, but a genuine specific for a very prevalent disease. Thousands of men, of all ages, have at some time in life brought on nervous debility and exhaustion, with organic weakness, by over brain work, excesses, too frequent indulgence or indiscretion and vicious habits, and it is to these that we offer a remedy that will, by its direct action upon the seat of the disease, stop the drain and restore the patient to vigorous health and strength.

Our method of introducing Prof. Harris' Pastille treatment is one which commends itself to all sensible persons—for the reason that we supply it upon their judgment of its value. We ask of our patrons nothing in the way of expense beyond a postal card and a two cent postage stamp. The postal card to be used in sending us their full address and the postage stamp for the letter returning the statement of their case for which we supply them with a question blank, to be filled out, and an envelope addressed to ourselves for use in returning it when filled.

FREE TRIAL PACKAGE.

When we receive the statement on blank we prepare eight days' treatment and forward it by mail and prepay postage thereon—and along with the eight days' treatment we send full directions for using. The treatment in no way interferes with a person's attention to business, and causes no pain or inconvenience in any way.

We are so positive that it will give perfect satisfaction that we leave the matter of sending orders entirely with those using the free trial treatment. Having satisfied those sending for trial packages of our ability to benefit their sexual condition we feel that they are more largely interested than ourselves in continuing the use of the Pastilles. Even then we do not attempt to rob them by demanding high prices. On the contrary, we make the prices as low as possible, and the same to all. They are as follows: $3 for one month; $5 for two months; $7 for three months.

Trade Mark.

These prices secure the delivery of the Pastilles by mail. If desired by express we leave the patient to pay the charges. For over ten years we have operated our business upon this plan with satisfactory results. We ask all persons needing treatment for any of the weaknesses which come to mankind through a violation of nature's laws to send us their address on postal card or by letter and allow us to explain to them that PROF. HARRIS' SOLUBLE MEDICATED PASTILLES have proven and are what they need.

All communications confidential and should be addressed to

THE HARRIS REMEDY CO., Mfg. Chemists

Watterson on Lincoln.

In his memorial address in Chicago Tuesday night on the eighty-sixth anniversary of the birth of Abraham Lincoln, Hr. Henry Watterson, editor of the Louisville "Courier Journal," said:—

It was the will of God that there should be, as God's own prophet had promised, a new birth of freedom, and this could only be reached by the complete obliteration and extinction of the very idea of slavery, God struck Lincoln down in the moment of his triumph to attain it; God blighted the South to attain it. But He did attain it, and here we are this night to attest it. * * * * Where did Shakespeare get his genius? Where did Mozart get his music? Whose hand smote the lyre of the Scottish plowman and stayed the life of the German priest? God, God and God alone; and so surely as these were raised up by God, inspired by God, was Abraham Lincoln; and a thousand years hence, no story, no tragedy, no epic poem will be filled with greater wonder or be followed by mankind with deeper feeling than that which tells of his life and death.

Mr. Watterson has paid many tributes to the memory of Abraham Lincoln, as have other eminent Southern orators also. They have apparently made an honest effort to make amends for the vilification they heaped upon his head when he was carrying the burden of the war for freedom upon his heart. It will soon be thirty years since he was assassinated. A good share of the generation that knew Lincoln and acted with him is still on the stage, but there is not one of the men who pictured him as a baboon in the days of the war who would not gladly unloose the latchet of his shoes if he were alive to-day. And the institution of slavery that Mr. Watterson says it was the purpose of Providence to obliterate from the country is the institution before which the Northern Democracy groveled and wallowed in the dirt in order that they might keep their party in power.

Interesting State Notes.

Susquehanna township has petitioned to be annexed to Harrisburg.

Wilkesbarre people will build a rink and try to revive the roller skating craze.

John Cranston, the exiled Hawaiian, is declared by Chicagoans to be an Englishman.

Luzerne county commissioners will build a stone fire-proof court house at Wilkesbarre.

Schuylkill county's bar opposes the Arnold bill, now before the legislature, to expedite litigation.

The annual outing of the Laurel Fire company, of York, include an excursion to New York and Boston.

The Elks' hotel project, of Erie, for the erection of a house at Conneaut lake, is now being pushed a little.

It is feared that ex Adjutant General Greenland cannot recover from Bright's disease, of which he is ill at Clarion.

An Erie paper says there is an anarchist society in Venango county, where the miscreants are turned out red hot.

For the loss of an arm at Palo Alto, W. S. Raber, of Pottsville, has sued the Reading Railroad company for $12,000

Schuylkill County Tax Collectors' association, at Pottsville, is trying to devise means to assist an obstructed collector.

The Harrisburg appropriation ordinance contains the significant provision: "$200 for shotguns for use in police department.

William Richardson of Mahanoy City, quartermaster of the Eighth regiment, has been appointed foreman of the state arsenal.

Fearful of overtaxing the strength of Penn street bridge, Reading, Judge Endlich, restrained trolley companies from laying tracks on it.

The state fishery commission objects to the Sowego Water company placing a dam in the river in Fulton township, Lancaster county, to furnish electric power to Baltimore.

Judge Bichtel, at Pottsville, has appointed a commissioner to examine as to the charges which Congressman Brumm recently preferred against Lawyer William D. Seltzer.

The Oil City Derrick speaks in complimentary terms of Mr. W. J. Bulger's new method of photographing by incandescent light, which allows the taking of photographs at any time and gives superior results.

Some farmers now say that the greater the snow of a winter the larger the soil productiveness of the coming spring and summer. If this is true, western Pennsylvania ought to have immense crops the coming summer.

Butter sold for $1 a pound in many parts of the state last week.

Chicken fights are common amusements for some people in Crawford county.

So-called "grave yard insurance" is still a "business" in parts of Schuylkill county.

A man who came from Berks county, and stopped Sunday at a Lebanon hotel, ate ice cream for mashed potatoes.

On Feb. 7 Rev. John W. Solenberger died at his home in New Guilford, Franklin county, aged about 85 years.

Among the incidents of the late severe storm was the freezing to death of large numbers of rabbits and wild turkeys.

The Sunbeam's property at Annville, Lebanon county, has been seized by the sheriff. It is a small printing establishment.

The town council of Minersville is after the health officer for permitting public funerals of persons who die of contagious diseases.

A freight engine ran into the Northern Central yards Monday morning at York with the front end imbedded in snow up to the headlight.

The different stage lines of the western and northern parts of the state were all more or less suspended in running last week, many of them not being out yet.

It will cost many thousands of dollars to repair the motive power and rolling stock of the railroads of the state damaged by the snow storms and ice of last week.

Dr. McCrystle, of Minersville, has beaten Pottsville's champion checker player R. M. Fry, nine out of sixteen games. They have arranged a series of fifty games.

Charles Deitzel, the miner who was imprisoned at Richardson colliery for over sixty hours, has almost entirely recovered from the effects of his terrible experience.

The question whether or not insurance companies must have examining physicians to ascertain the true state of the health of a person seeking to be insured is now before the courts of the state.

An Extraordinary Winter.

The United States weather observers last evening told, in figures, of the extraordinary weather conditions that have prevailed since the beginning of 1895. For the month of January the temperature was 368 degrees below the normal. This means that for the past 20 years no January has been so uniformly cold. For the 15 days of February the number of degrees below the normal is 285, and the indications are that this record will be made more abnormal. The winter all over the country has presented similiar extraordinary features, and 1895 will be famous for the number and severity of cold waves that have desolated the Southern parts of America. Yesterday snow was falling at Pensacola, Fla., where in previous years the freezing point had not been touched.

Washington's Birthday.

Gregg Post, No. 95, G. A. R., will have their annual Restaurant entertainment in the Post Room February 22nd. Regular turkey dinner from 12 to 2.30 p. m. Price for dinner, 35 cts.; ice cream extra. Meals will be served from 2.30 until 11 o'clock p. m. on the restaurant style.

Collided at a Crossing.

Pittsburg, February 17.—This evening the Cumberland express on the Baltimore and Ohio railroad, bound for Pittsburg collided with a Second avenue electric car at a crossing near Rankin station. There were eight passengers on the electric car. Just as it approached the crossing the trolley jumped from the wire. The momentum carried the car over the east-bound track, but it stopped with the rear end directly over the west bound track. While Conductor McGhan was replacing the trolley he saw the express approaching and called to the passengers to jump. All got out of the car safely. Annie Kosak, a Slav woman, aged 18, became bewildered, ran directly up the track, and was struck and instantly killed by the express. She had just landed from Hungary and in a few moments would have been with her parents at Braddock. The car was but slightly injured.

Invitations are Out.

The invitations are out for the reception by Governor and Mrs. Hastings, on Tuesday evening, February 26, to the United States Senators, Congressmen and Congressmen-elect, State Judiciary and the personal friends of Governor and Mrs. Hastings in this and other states.

Bellefonte Republican,

To CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer.
Correspondents should write upon but one side of the paper, and avoid the use of pale or fancy inks.

EDWARD T. TUTEN.

Local Department.

—How does this kind of weather suit you?

—The number of sociables being held each week is still on the increase.

—Such weather as this one almost expects to hear the robbins sing and see the spring poet put in an appearance.

—One would think to judge from the way Street Commissioner Shaughensey is shoveling snow on the streets that the sleighing is about done for, whereas there is about one foot of solid ice on the streets

—The man may guy, and a man may lie and a man may puff and blow, but he can't get trade by sitting in the shade waiting for business to grow. The United States mint is the only business that can make money without advertising.

—It is said that county commissioner T. F. Adams has taken to reading Blackstone. If this is so, some of the present attorneys want to look to their laurels when Frank completes his "course."

—Clement Dale, Esq., has an engagement to deliver a Washington's birthday address before a neighboring public school on Friday. Clem. is the man who can do such talking in the way it should be done.

—At the home of the bride's mother Mrs. John Kinch, at Franklinville on Wednesday of last week, Rev. T. J. Ermentrout united in marriage Miss Jennie Kinch and George W. Irwin, of Pennsylvania Furnace.

—Michael Gilbert, of Livonia, Centre county, died at that place Saturday last, aged almost 90 years. He is survived by five sons and six daughters. The funeral took place Tuesday morning at 9.30 o'clock from the Brungard Lutheran church.

—While in the majority of places the ground is not at all frozen, yet on the A. G. Curtin farm at Centre Hall it is frozen solid to a depth of four feet, and all the water pipes are frozen solid. Mr. Joel Kerstetter is the tenant and he is having a big time trying to dig up the pipe to thaw them out.

PERSONAL PENCILINGS.

Mr. J. C. Harper has been drawn as a petit juror to serve in the United States district court to convene at Scranton in March.

Mrs. Theodore Cherry spent Friday in Sunbury.

Prof. E. J. Haley, of State College, passed through Bellefonte Friday evening en route to his home in Lancaster.

We have thus far omitted to mention the fact that Mr. Edward Richards, of Philadelphia, is at present visiting his parents and friends in this place.

Mr. George T. Bush is in New York City attending the League of American Wheelmen's national convention. George is an enthusiastic wheelman and always takes an active part in any and all their doings.

Mr. Harry Hutchinson, ticket agent for the P. R. R. Co. in this place, is on the sick list to-day and Station Agent John I. Potter is handling the little pieces of pasteboard.

John Love, son of Mrs. Margaret Love of Tusseyville and who last summer worked for Mr. J. J. Musser, near here, while coasting near his home, in some way or other fell and suffered a fracture of his left limb just above the ankle. The accident will necessitate his staying in doors for quite a long time.

Advance agents for theatrical entertainments struck Bellefonte two thick to-day. First there came in James H. Alliger, the genial gentleman who is directing the tour of America's favorite tragedian, James Young, and next came J. M. McNamara, business manager of "Charley's Aunt" company, the great comedy success of the season, whose show will be here on Saturday evening, March 2nd, just a week and a day after the visit of Mr. Young in "Hamlet"

Industries Seeking Location.

Two industries are now seeking locations One is a carpet factory at Bloomsburg Letters addressed to James McKee, Bloomsburg, will receive prompt attention. Shamokin is making an earnest effort to secure it.

The other industry is a shoe factory that wants to leave Brooklyn for a more suitable place. J. M. King, 145 Lewis avenue, Brooklyn, N. Y., will give all information desired on the subject.

Bellefonte could accommodate both these industries, if the effort was made to secure them.

The Scientific Society.

The Scientific Society of the State College has passed a resolution to elect as members only the five members of the Senior class ranking highest in honors each year. The five who will be elected from the class of '95 are Budd Gray, of Tyrone; George Dorsey Green, of Fillmore; Byron Barnes Horton, of Sheffield; Edwin Partridge Harder, of Catawissa, and Melvin Barner Keifer, of Sunbury.

THE BOROUGH ELECTION.

A Badly Mixed Ticket Was the Result.

The borough election passed off Tuesday, but not "very quietly," only in the North ward, where there was some work done, but it was nothing compared with the battle in the "bloody South," and a glance at the returns as printed below will clearly show to the most unobservant, what a terrible amount of cutting was done. And, as almost everyone knows a reason, if not *the* reason, for it all it is needless to make any comment. Below we give the returns from the borough, and the county so far as received, which speak for themselves:

BOROUGH TICKET.

Poor Overseer.

Harshberger	352
Hepburn	434
Irwin	26

Auditor.

Chambers	317
Howley	447
Heylmun	38

Treasurer,

COUNCIL'S WORK.

The Last Session a Very Brief One.

Council convened Monday evening at 7.30 o'clock—just one half hour later than regular time, with Messrs. Gerberich, Williams, Hillibish, Beaver, Brockerhoff and Garman present. In the absence of President Miller Williams moved that Garman preside as president pro tem. So ordered. Clerk Isaac Mitchell read the minutes of the previous meeting, which were approved as read.

There were no verbal nor written communications to present to council.

The Street committee reported considerable snow shoveling having been done during the past two weeks. The Street committee asked the sense of council as to the advisability of allowing men to work out their taxes on the streets, the tax collector having given several parties orders to the Street committee to that effect.

The Water committee reported fire plug at Central Railroad station broken and also a big leak in the water main on Linn street. Both have been repaired or are about to be

The Fire and Police committee reported Undine steamer out of repair, but will soon be in shape again.

The Market, Nuisance and Finance committees had no reports to make.

Some time ago Rev. James P. Hughes appeared before council and asked a rebate of taxes paid on land part of which is in Spring township and a small part of which is in the borough and on the whole of which he had paid taxes in Spring township. It was moved and carried that Rev. Hughes be refunded the tax paid and exonerated of those assessed and still unpaid.

The matter of the tax collector sending men to work out taxes on the streets was held over for further consideration.

Business being concluded the following bills were approved and council adjourned:

Police pay roll	$35 00
Street pay roll	15.20
J. H. Wetzel, surveying	3.50
William Utz	2.00
Water pay roll	89.23
W. B. Maitland, repairs	4.08
Charles J. Shearer, blacksmithing	2.35
H. A. McKee & Bro., hardware	3.47

James Young, in "Hamlet."

George Washington was first in war, first in peace and first in the hearts of his countrymen," and it can also be said of Mr. James Young, who is the attraction at the opera house next Friday night, that, like the "Father of his country" he is first in the hearts of his countrymen, for Americans are proud of this young American actor. On Friday night he will present "Hamlet," of which a prominent member of the Southern News says: "The best that can be truthfully said is that he possesses great genius, and he will, 'ere many more years roll by, reach the goal which the lamented Booth reached and then laid aside earthly cares, happy in the knowledge that he had "no half dealings with his art."—*State, Columbia, S. C.*

"For Men Only."

One of the most novel advertising schemes we have seen this long time is in the window of Montgomery & Co's clothing store. The window is entirely curtained with brown paper and in the front is a hole about four inches square. Above this hole is a large sign bearing the words "For men only." Of course many men have taken a peep and we'll bet our last summer's hat that almost every lady passing there has almost died with curiosity to know what's inside of that hole, but not one has yet had the courage to look. Of course we will not give away the nice things Mr. Montgomery has on exhibition inside, but it is worth anyone's while to take a peep through that hole.

The China-Japan War

It is thought may raise the price of tea and other articles, but we are still furnishing to our customers at the old rates. We take no account of the scrap between the Japs and Chinese, we know some merchants are trying more money to squeeze by advancing the prices of spices and teas, but the old reliable

EUREKA

keeps right along at the same old gait with prices as usual, with everything in the grocery line the best and cheapest in the market Call and see us—latch string always out—at Eureka Grocery, High Street, next door to post office.

State's Schedule.

The manager of the State College base ball team has completed the schedule for the coming season, and the same is as follows:

April 12—Dickinson at Carlisle.
April 13—Gettysburg at Gettysburg.
April 19—Franklin and Marshall at Lancaster.
April 20—Princeton at Princeton.
April 23—Lehigh at Bethlehem.
April 24—University of Virginia at Charlotteville.
April 25 and 26—University of North Carolina at Chapel Hill, N. C.
May 8—Cuban Giants at State College.
May 9—Washington and Jefferson at Washington, Pa.
May 10—Adelbert College at Cleveland, Ohio.
May 11—Oberlin at Oberlin, Ohio.
May 15—Lafayette at Easton.
May 17—Gettysburg at State College.
May 22—Washington and Jefferson at State College.
May 30, morning and afternoon—Demorests at Williamsport.
June 5—Franklin and Marshal at State College.
June 12—Demorests at State College.

The team this year will be an unusually strong one as there is an abundance of the best material. The makeup, however, is not yet complete.

National Guard Inspection.

The following official order signed by Governor Hastings, as Commander-in-Chief, and Thomas J. Stewart as Adjutant General, has been issued from the headquarters of the National Guard of Pennsylvania at Harrisburg:

"During the months of March, April and May of the present year the Brigade Inspectors, under the direction of Colonel Edward Morrell, Inspector General, will inspect the several organizations in their armories at such time as may be designated by the Brigade Commanders. Where the companies of a regiment are stationed at different places, Brigade Commanders will furnish transportation to two field officers of such regiment in order that they may be present at the inspection of the various companies composing the command. Upon completion of the inspection, the Brigade Inspectors will make prompt report of same to the Inpector General. Special reports may be made and forwarded at once in cases requiring the immediate attention of these headquarters."

Heroic Deed.

On last Friday one of the teachers of Howard township performed a very heroic deed. When school was dismissed that evening, the snow was very deep and the wind was blowing a gale. Mr. W. F. Leathers, the teacher, was afraid his little flock would perish in the snow, so he formed them in a chain, he taking the lead, and took his whole school to the home of Director W. T. Leathers in safety, where he was sheltered for the night, During the night the snow had obtained such a depth the teacher was obliged to take his school home by rail

The "Scarlet Fever" Sign Down.

The Board of Health has removed the scarlet fever placard from the door of B. C. Achenbach, on Bishop Street, it now being considered there is no further danger. When being asked this morning if his child had the scarlet fever, Mr. Achenbach said that it was a disputed question between physicians, some asserting it had not while others were of the opinion that it had; and, to be on the safe side, they determined to call it scarlet fever. However, they now all agree that, even if it was fever, there is now no further danger of contagion as the boy has been well for a number of days and the house has been thoroughly renovated and fumigated.

LETTER LIST

The following letters remain in the Bellefonte P. O. uncalled for Feb. 18th 1895.

Mrs. R. B. Anderson, John J. Brown, A. F. Brown, J. W. Holt, Miss Nannie Lytle, William Noll, Jacob Ocher, A. H. Reed, Irvin Scharer, Amanda Shauver, A. K. White, Mrs Mollie Wilson, (2.)

When called for please say advertised.

DAVID F. FORTNEY, P. M.

Marriage Licenses.

Following is the list of marriage licenses granted by the register of Centre county during the past week:

W. F. Harrison and Miss Catherine Ross, of Pleasant Gap.

John A. Kelley and Gertie M. Reeser, of Snow Shoe.

Henry W. Burd and Florence J Woodring of Rebersburg.

What They Say.

Some farmers now say that the greater the snow of a winter the larger the soil productiveness of the coming spring and summer. If this is true, central Pennsylvania ought to have immense crops the coming summer.

STATE COLLEGE ATHLETICS.

A Successful Indoor Meeting Held and Records Broken.

The fifth indoor meeting of the State College Athletic Association was held in the College Armory Friday evening. Four records were broken, including the pole vault, thirty yards dash, putting sixteen and twelve pound shot. Fisher not only broke the college record in the sixteen pound shot but eclipsed the present State Intercollegiate record of thirty seven feet, five inches. His best put was thirty-nine feet. Some good wrestling and sparring exhibitions were given. The score of points by classes was as follows: Seniors, 11; Juniors, 47; sophomores, 9; freshmen, 20. The officers of the meeting were Referee, Professor M. C. Ihlseng; judges, Professor E. W. Runkle and Professor T. W. Kinkaid; starter, George W. Hoskins.

The events and winners were as follows:

30-Yard Dash.—Won by Thompson, '96; second, Cummings, '95; third, Conrad, '97. Time, 3 4-5 seconds.

Putting twelve pound shot.—Won by Fisher, '96; second, McGee, '97; third, Dunsmore, '97. Distance 43 feet 4 inches.

440 Yards Dash.—Won by Mechesney, '98; second, Kaiset, '98; third, Price, '96. Time 1 minute 6 seconds.

Putting 16-pound shot.—Won by Fisher, '96; second, McGee, 97; third, Rawn, '98. Distance, 39 feet.

Running High Jump.—Won by Harder, '95; second, Cummings, 95; third, Jessop, '96. Height, 5 feet 3 inches.

Half Mile Walk.—Won by Price, '96; second, Conrad, '97. Time, 6 minutes, 46 2-5 seconds.

Standing High Jump.—Won by Thompson, '96; second, Harder. Height, 4 feet 6 inches.

Pole Vault.—Won by Thompson, '96; second, Bullard, '98; third, McKibben, '98. Height, 9 feet 5 inches.

Half Mile Run.—Won by Price '96; second, Kaiser, '98; third, Conrad, 97. Time 2 minutes 43½ seconds.

Wrestling Contest, 140 pounds.—Zentunger, '97, and Gloeser. Zentunger won.

Sparring Exhibition.—Newell, '98; and Pepper, '95. Newell won.

Obstacle Race.—Won by Ewing, '98; Pierce, '98, second.

Standing Broad Jump.—Won by Rawn, '98; second, Thompson, '96; third, Conrad, '97. Distance 9 feet 6 inches.

Wrestling Contest, 150 pounds.—Brown, '98, and Darraugh, '97. Won by Brown.

One Mile Run.—Won by Price, 96; second, Kaiser, '98. Time 6 minutes 9 3-5 seconds.

Wrestling Contest.—Brown, '98, and Zentunger, '97. Won by Zentunger. Two falls to one.

A New Invention.

Stephen Philip Rush, one of Tyrone's most ingenious gentlemen, has just invented and put in rough model form a piece of furniture combining a couch, a cradle and a baby swing in one article. First it is arranged so that it looks like and answers the purpose of an ordinary couch; next, the top can be lifted off and the cradle is displayed, the rockers for which are produced by means of a lower movement which performs a transposing act, the rockers taking the place of the couch. By placing the top on the floor beside the cradle, tired mamma can lie down and rock baby in the cradle, or again, she can elevate another portion of the ingeniously arranged piece of furniture and form a swing to amuse and quiet the little one. It is an interesting invention, and if properly handled might become a very popular piece of furniture.

—Monday night a sled load of Buffalo Run people and a sled load from down Nittany valley came to Bellefonte and spent a most delightful and jolly evening at the home of Mr. and Mrs. Morris Cowdrick, on East Linn street. There was music and games, and delicious refreshments and it was one o'clock before the parties started for home.
